Welcome to the Sanymetal Hardware Catalog, our March 2006 edition. This edition takes precedence over all other previous editions. If you are a first time viewer, we hope you will take the time to browse and take note of our hardware items available for stock or replacement. If you are familiar with our previous edition(s) of this publication, you will note we have made many changes to update for new product available and to delete or flag items which are being discontinued. We hope you will be able to easily locate the items you are searching for. To assist you we have grouped items into catagories and provided a listed TABLE OF CONTENTS on page 1. We have also included a ALPHABETICAL INDEX on page 29.
