

About the School

At Weekday Preschool the guiding philosophy is based on the belief that children learn through play. We provide developmentally appropriate curriculum and activities that foster self-confidence and help develop critical thinking skills. Under the guidance of our caring and nurturing teachers, we hope to cultivate a love of learning in your child.

Weekday Preschool is conveniently located near downtown Corning, New York and provides a program for 3 and 4 year olds designed to meet the needs of the whole child: social, emotional, intellectual, and physical. The Preschool was founded by the First Presbyterian Church in 1959 and our program supports a positive atmosphere by incorporating a faith thread woven throughout the curriculum.

Curriculum and Activities

At Weekday we have lots of hands-on fun! We provide a range of small and large group activities. Children are able to use a variety of materials and mediums to create art projects.

The children engage in both gross and fine motor play throughout the day. Our outdoor playground includes a large sandbox and a variety of climbing equipment.

We also have a wonderful indoor "bike room" to promote gross motor development. Children are able to use an assortment of tricycles, scooters, wagons, and other ride-on toys.

The classrooms have multiple learning centers for children to explore and investigate through constructive and dramatic play.

- Extensive block area for building
- Housekeeping corner that includes a kitchen, living room, and bedroom

- Music center provides opportunity to explore music and movement instruments
- Dress-up area for dramatic play
- Community helpers area
- Science is addressed through weekly activities that introduce children to basic concepts meant to encourage analytical thinking
