

Most of us attend a church which is facing a serious aging problem. Those committed souls who have attended faithfully for years continue to attend – which is great. But, in most of our churches those are the only ones who continue to attend faithfully. It's difficult and seemingly almost impossible to see new folks join the fellowship, let alone come more than once or twice.

Yet everyone wants to see their fellowship grow. Everyone wants to see new people come into the flock and become active. Everyone wants to see that the membership is age and gender balanced. And everyone continues to ask the question, *“How can our church experience growth which leads it toward being healthy and multiplying?”*

The key to that growth lies in following God's strategy for disciple formation, growth, and multiplication which leads to healthy multiplying churches. For everyone who is serious about reaching this growth goal, they must understand God's strategic plan and they must be completely intentional in working out that plan. His plan has been summarized into a framework for helping serious believers understand and thrive in the components (*vision, entry, evangelism, discipleship, group/church development, leadership development*) necessary for growth and multiplication.

This framework is being used throughout East Asia, South Asia, and the world in the process of building healthy multiplying disciples and churches. Even church planters across the U.S. are beginning to use it in helping them achieve what God has called them to do. Learning to use this framework will help every church and every minister begin moving forward toward healthy growth and multiplication.

This training will be broken down into four 1.5 hour meetings. Each meeting will focus on one to two components of the framework. Each of the training sessions will be duplicated – so that anyone with a scheduling conflict will have a chance to attend. The training schedule is following. Contact us for registration or with questions.

Healthy Multiplying Disciple and Church Training

1. Components One and Two
 - a. January 26, 2017, 6:30-8:00 pm, Friendship Baptist Church, Dexter
