

What Does the Future Hold?

By Ev. Wayne Coleman

Nov. 3, 2012

We find ourselves at a crossroads as a nation. There is no easy way to say it. Are the answers easy? Perhaps. How we choose as a nation will determine the future of not only this generation, but those to come.

In reality, we of this generation, are given the dubious honor of determining the fate of our children, and the society they will face in their day. Will we champion the cause of freedom, democracy, peace and stability? Or will the 'Great Experiment' go down the path of reckless abandon?

This election, to be decided in a few short days IS the most important event of our time. There are two possible outcomes; Democracy or Dictatorship. So I ask you Patriot, which will it be?

Isaiah 21:11-12

11 The burden of Dumah. He calleth to me out of Seir, Watchman, what of the night? Watchman, what of the night?

12 The watchman said, The morning cometh, and also the night: if ye will enquire, enquire ye: return, come.

The word enquire means, to seek out, swell, cause to swell, boil up, enquire. In other words, to facilitate a cause, either by words, or by action. We have the opportunity to do just that, by our Constitutional right to vote.

What will this election mean for us in years to come? If the current President remains in office for another 4 years it will mean:

THE ECONOMY WILL SUFFER:

National debt has increased from 6 to 16 Trillion dollars since Barak Obama took office. Expect it to continue to rise to at least 30 Trillion dollars by the time he leaves office. (Note: A trillion = 1,000 million!)

With our U.S. economy pushed to the limit, our country will be forced into bankruptcy. On the great world Monopoly board, that means that we will be forced to turn over our property cards and mortgage off even more valuable U.S. land to the Chinese and other foreign investors. (We have already sold many of our state parks and timberlands to the Chinese). Also, many of our remaining U.S. companies will be forced out of business or taken over by the government or foreign interests.

Also expect unemployment to continue to rise. Currently there are over

23, 000,000 people unemployed. That number could easily exceed 50,000,000 at the current rate. But you see that is what the Liberal agenda wants! How better to set the stage for a Socialist state than through an American work force on Government social programs.

THE FAMILY WILL SUFFER:

The family is under attack. We are not ignorant of who is behind this attack; satan. When a nation can blissfully turn its head while doctors carry out partial birth abortions, our nation is in BIG trouble. In spite of the fact of a conservative presence on the bench of the Supreme Court, our government continues to support legalized murder of our children.

Christian morality and even societal morality are laughed at. The concept of separation and purity are scoffed at. The current administration has no desire to uphold policy that is pro-family, especially if that definition of family is a mother, father, and child. President Obama has made it clear that he supports the gay rights activists over the cries of the U.S. majority that still believes that the God blessed union defined by the word of God is, one man and one woman.

Also four more years of the current agenda means the continued cold disregard and snubbing of our nation's senior citizens and military personnel, and continued decreasing of their social security, pensions and benefits from a President who disdains the American flag.

THE CHURCH WILL SUFFER:

I conclude this article by what is in store for the church. There is so much could be written, by I think this will play out this way.

There are currently, laws on the books that can dictate the size and status of a church. I read somewhere that this experiment has been tried in California. When unleashed, churches will be forced to combine or close if they run less than 200 in attendance. In other words, if you have less than 200 members, you can not be recognized as a legally operating church and forced to close.

Also, the push is on right now to enforce the Hate Crimes Bill, which means in a nutshell that churches can not discriminate against homosexuals, Muslims or whoever. What this means for the church, is that preaching the Gospel can get you some prison time. Obviously the church is not in the practice of discrimination or hate, but we are commanded by the Word of God to preach that homosexuality is still a sin, and that there is only one God, and He is not going to vacate, bow, or share His throne with Allah or anyone else! The true Christian believes in the one true God, Jesus Christ, and cannot simply bow to, or coexist with Islam, or embrace shariah law.

Revelation 4:1-2

1 After this I looked, and, behold, a door was opened in heaven: and the first voice which I heard was as it were of a trumpet talking with me; which said, Come up hither, and I will shew thee things which must be hereafter.

2 And immediately I was in the spirit: and, behold, a throne was set in heaven, and one sat on the throne.

If we as a church body, take the path of complacency, we have only ourselves to blame, when the electoral process is no more, the economy is in shambles, our children are forced into government run schools where they are indoctrinated by the teachings of the koran, islam is imposed upon this once free nation, and martial law is the rule, a time when the basic freedom of worship of our choosing is abolished by a socialist state and its king. **Let us stand up, and pray for our nation, and its road to revival and recovery!!**
