We thank God for bringing us this far through the pandemic and enabling us to worship together once again.

However, we must still be careful! Mask wearing is optional, but we recommend you continue to wear them. Temperatures will not be recorded, but we ask if you have any symptoms or had any exposure, you see a physician ASAP and not expose others. Social distancing is still recommended, especially with those not of your household.

Let us continue to protect ourselves and each other by Washing our hands, Wearing our masks, when appropriate, and Waiting at least 6 feet from others not of our household whenever possible.
