If you have a picture (jpg format) of your church building, please e-mail that to me as well. I'd love to add that to our website along with your church's name. ☺

We are also hoping to add a section to our website listing any open positions (for pastors and staff members) within our association. Please let me know any time you have staff positions open, and I'll make sure they get added to the list!

Thanks in advance for your help with this. It is appreciated very much!
