DEVELOPING A SENSITIVITY TO GOD

When you have an injury, like a sore toe, you have to be constantly vigilant to prevent injuring it further. Any bump may send spasms of pain through your body. You almost have to keep your toe in mind all day long. You have to give it more attention than you normally do.

Because God is real, and deserves all the Glory we can give Him, we must develop a sensitivity for God. We must live with an awareness of how everything we do affects Him, His glory, His good name, either positively or negatively. We almost have to keep Him in mind all day long. We have to give Him more attention than we normally do.

Developing such a mind that is set on God is a long-term project for us. It involves prayer, meditating on God's Biblical truth, and. Begin today to form good habits of sensitivity to how what you do and say affects God.
