Kits for Sewing Face Masks Now Available

Lots of mask-making kits with supplies and directions to make cloth face masks have been prepared by the Bold Women of Lovers Lane UMC. **Will you help sew the masks?** Each kit has directions, fabric already cut, and ties. You'll need a sewing machine (*not a serger*) and basic sewing supplies (thread, pins, iron and scissors).

We have provided hundreds of masks for Lovers Lane UMC members and staff, Dallas Bethlehem Center volunteers, and Charlton Methodist Hospital staff, patients, and visitors. The demand continues with hundreds more already requested by Christ Foundry, Wesley Rankin, DBC, other healthcare workers, etc.

You may keep a few for your family and friends if you return at least half of the masks to be shared with those on the front lines eager for our help. Once you have made a whole kit, you will be able to make even more masks for your friends and family with your own supplies.

WE NEED YOUR HELP!! Contact Wendy Campbell (wjpcampbell@gmail.com) with any questions and to arrange to pick up. Kits may be picked up (and returned) near Preston & LBJ or to Lovers Lane UMC. Your help will be appreciated!

THANK YOU!
