

Why Take the Paris Pledge?

At the UN Climate Talks in Paris in 2015 every country in the world signed the climate agreement to take action to limit global warming. Even though the current administration is taking steps to remove the U.S. from the agreement, many states, cities, local governments, businesses, and congregations are taking action to reduce their carbon pollution. In support of this agreement IPL is asking you to commit to 50% reductions in global warming pollution by 2030, towards a goal of being carbon neutral by 2050. When you sign the Paris Pledge today, we will add your name to the list of those pledging to do the same in their own homes and congregations.

Please sign the Paris Pledge today to show the world that America's faith community is leading by example. Pledge on flip side. Hand off to IPL organizers where you are located. Thank you for being a climate champion! Find resources to carry out your pledge at IPL's CoolCongregations.org

Take the Paris Pledge

In support of global leaders and nations who signed the 2015 UN Climate Treaty in Paris, **I pledge to reduce my carbon pollution 50% by 2030 and to become carbon neutral by 2050.** I believe a brighter future is within reach -- a world with an economy that works for people and the planet, a world safe from the ravages of climate change, a world with good jobs, clean air and water, healthy communities, and a world where people of faith everywhere act as stewards of Creation and begin to build a new relationship with the Earth.

Full Name: _____

City, State, Zip: _____

Email: _____

Check here if you are taking the pledge as an individual: ☐

Check here if you are taking the pledge on behalf of a congregation: ☐

Name of Congregation: _____

Town/City of Congregation: _____
