

New Concept!

Church Plant Pack

**150 Watt PA System
2 Wireless Microphones
LED Projector & Tripod
Collapsible Projection Screen
CD Player**

**Lightweight
Portable**

in collaboration with
JESUS Film™
HARVEST PARTNERS 

Approximate Cost: \$1,000

**Do it Yourself instructions available at
www.parkvillefamily.org/page/church_plant_pack**

The Church Plant Pack is a compact, light-weight, low cost solution for mobile ministry applications. The system is regularly used in a variety of situations including:

- Corporate Worship
- Easter Sunrise Service
- Celebrate Recovery
- Outdoor Weddings
- Southern Gospel Music
- Outdoor Movies

The Church Plant Pack is built with commercially available parts and weighs only **30 pounds**. It delivers quality audio and video for groups up to about 80 people. The Optoma LED projector should only be used in situations where the room lights can be dimmed.

This concept was inspired by the Jesus Film Harvest Partners solar powered back pack. Visit www.jfhp.org to find out more about how your church can partner with them.
