May-June 2018

We're 94% funded (only 6% more)!

We are thankful for our partners as we are now 94% funded in our sustaining budget! To move

to Botswana, we must be 100% funded. We are asking God to provide the remainder through additional individuals, families, small groups and congregational partners or through current partners who increase their gifts.

The remainder in partnerships needed is:

2 @ \$100/month (\$1,200/year)

4 @ \$50/month (\$600/year)

4 @ \$25/month (\$300/year)

Has God put one of these on your heart?

Missionary Training Courses in Canada

In June we traveled to Heritage College & Seminary in Cambridge, Ontario, for two missionary training courses through MissionPREP.

As we write this newsletter, we have successfully completed the PLANTS course, which was

eye-opening! We anticipated a typical language acquisition skills development course but were pleasantly surprised! In typical language courses, one memorizes word lists and how to conjugate verbs, but this method focuses on intentional listening to and interacting with a mentor with whom a deepening

Training With New Missionary Friends

relationship is built. By hearing the host speak in ordinary life and in guided practice, one becomes contextually familiar with the host language terms, sentence structure, and customs. We were surprised by how much we could understand and begin to speak after only 10 hours of instruction in a new language! The IMPACT course will enhance our cultural sensitivity and cover important topics on how to function well in our new host world.
