Electricity

I don't understand electricity, but I know it works. A flip of a switch brings light into a room or sends sound through a microphone.

I don't understand God's power, but I know He's the Omnipotent One. He provides power needed for every task, every situation.

When an electrical appliance fails to work, the first checkpoint is whether or not it is plugged into the power source. So it is with our lives. If things aren't working properly, we must check to be sure we are properly connected to the Eternal Source of Power and "filled" daily "with the Spirit." Ephesians 5:18. There is never a power shortage with God!

~Mildred Burger

Five year old Sara sat lovingly petting her cat at family devotions. The lesson was about taking good care of pets. The question was asked, "Do you think Jesus had pets when he was a boy and if so what kind?" The family agreed that perhaps he had a dog or cat. Sara was asked, "Do you think Jesus helped change the kitty litter?" Thoughtfully she considered the question, and then brightly said, "Nope, Jesus said, 'let there be sand!'"

A Message from Pastor Shue

How about this beautiful early fall weather we had this past week end. The cool mornings and not so hot days are fine by me. This is also the start of football season as well.

Doesn't matter if it is High School, College, or Professional Football, I'm glad to see it. In a couple of weeks I'll be having my 40th High School Reunion. It sure doesn't seem like it has been that long. It seems like my high school classmates look really old! I guess they are all thinking the same about me.

Good news from Santa Emilia, Nicaragua both the Medical Center and the church are coming right along. The walls on the Medical center are almost complete and they are starting on the outside roof. I would guess the building itself will be finished in a month or two. I am not sure when the government will get the Medical Center staffed and up and running. I will let you know as I hear more news.

If there are any members of the church who are interested in going on the mission trip to Santa Emilia, this coming Jan. 30th thru Feb. 6th, 2017, I need to know really soon. The trip is filling up fast. The cost of the trip is \$450 per person plus your airplane ticket. As I stated in church a few times I will be going with my daughter Ashley. I would love for several of you to go along with us. Right now the cost of the airplane ticket is \$750 per person. Please pray about this and see if you feel God calling you to go on an international mission trip.

Don't forget we will be having Frankie and Phyllis Vallens as our musical guests on September 24th at 6:30 p.m. We will have a light supper fellowship (Sloppy Jo's) starting at 5:30 p.m. Mary Compton will contact you if you are to bring something. I hope to see many of you here.

I hope each of you have a truly blessed week.

Your Servant in Christ,

Pastor Claude

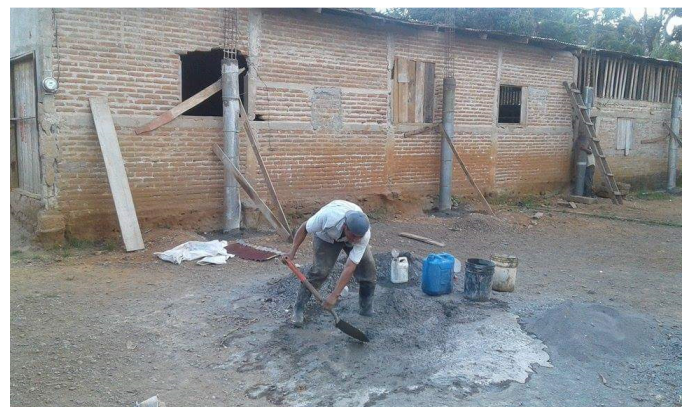

Progress is being made on the Medical Center.

They are already working on the roof.

Soon they will have the outside work done and can start building the rooms inside.

The congregation is moving right along on their church too. This man mixes concrete for the support columns.

These support columns are on the fourth wall of the sanctuary.

The columns go up to the roof line and will help support the new wall as well as the 2x4 rafters to which tin will be added to complete the roof.

Almost Here

Saturday, September 24th, 6:30 p.m. we will be privileged to have Frankie and Phyllis Valens in our sanctuary. **The Fellowship Committee has planned a light supper (sloppy Jo's) at 5:30 before the concert.** Bring a friend and come and enjoy some good music, fellowship, and testimony. A free will offering will be taken for the Valleng's.

Electricity

I don't understand electricity, but I know it works. A flip of a switch brings light into a room or sends sound through a microphone.

I don't understand God's power, but I know He's the Omnipotent One. He provides power needed for every task, every situation.

When an electrical appliance fails to work, the first checkpoint is whether or not it is plugged into the power source. So it is with our lives. If things aren't working properly, we must check to be sure we are properly connected to the Eternal Source of Power and "filled" daily "with the Spirit." Ephesians 5:18. There is never a power shortage with God!

~Mildred Burger

Five year old Sara sat lovingly petting her cat at family devotions. The lesson was about taking good care of pets. The question was asked, "Do you think Jesus had pets when he was a boy and if so what kind?" The family agreed that perhaps he had a dog or cat. Sara was asked, "Do you think Jesus helped change the kitty litter?" Thoughtfully she considered the question, and then brightly said, "Nope, Jesus said, 'let there be sand!'"

A Message from Pastor Shue

How about this beautiful early fall weather we had this past week end. The cool mornings and not so hot days are fine by me. This is also the start of football season as well.

Doesn't matter if it is High School, College, or Professional Football, I'm glad to see it. In a couple of weeks I'll be having my 40th High School Reunion. It sure doesn't seem like it has been that long. It seems like my high school classmates look really old! I guess they are all thinking the same about me.

Good news from Santa Emilia, Nicaragua both the Medical Center and the church are coming right along. The walls on the Medical center are almost complete and they are starting on the outside roof. I would guess the building itself will be finished in a month or two. I am not sure when the government will get the Medical Center staffed and up and running. I will let you know as I hear more news.

If there are any members of the church who are interested in going on the mission trip to Santa Emilia, this coming Jan. 30th thru Feb. 6th, 2017, I need to know really soon. The trip is filling up fast. The cost of the trip is \$450 per person plus your airplane ticket. As I stated in church a few times I will be going with my daughter Ashley. I would love for several of you to go along with us. Right now the cost of the airplane ticket is \$750 per person. Please pray about this and see if you feel God calling you to go on an international mission trip.

Don't forget we will be having Frankie and Phyllis Vallens as our musical guests on September 24th at 6:30 p.m. We will have a light supper fellowship (Sloppy Jo's) starting at 5:30 p.m. Mary Compton will contact you if you are to bring something. I hope to see many of you here.

I hope each of you have a truly blessed week.

Your Servant in Christ,

Pastor Claude

Progress is being made on the Medical Center.

They are already working on the roof.

Soon they will have the outside work done and can start building the rooms inside.

The congregation is moving right along on their church too. This man mixes concrete for the support columns.

These support columns are on the fourth wall of the sanctuary.

The columns go up to the roof line and will help support the new wall as well as the 2x4 rafters to which tin will be added to complete the roof.

Almost Here

Saturday, September 24th, 6:30 p.m. we will be privileged to have Frankie and Phyllis Valens in our sanctuary. **The Fellowship Committee has planned a light supper (sloppy Jo's) at 5:30 before the concert.** Bring a friend and come and enjoy some good music, fellowship, and testimony. A free will offering will be taken for the Valleng's.

Electricity

I don't understand electricity, but I know it works. A flip of a switch brings light into a room or sends sound through a microphone.

I don't understand God's power, but I know He's the Omnipotent One. He provides power needed for every task, every situation.

When an electrical appliance fails to work, the first checkpoint is whether or not it is plugged into the power source. So it is with our lives. If things aren't working properly, we must check to be sure we are properly connected to the Eternal Source of Power and "filled" daily "with the Spirit." Ephesians 5:18. There is never a power shortage with God!

~Mildred Burger

Five year old Sara sat lovingly petting her cat at family devotions. The lesson was about taking good care of pets. The question was asked, "Do you think Jesus had pets when he was a boy and if so what kind?" The family agreed that perhaps he had a dog or cat. Sara was asked, "Do you think Jesus helped change the kitty litter?" Thoughtfully she considered the question, and then brightly said, "Nope, Jesus said, 'let there be sand!'"

A Message from Pastor Shue

How about this beautiful early fall weather we had this past week end. The cool mornings and not so hot days are fine by me. This is also the start of football season as well.

Doesn't matter if it is High School, College, or Professional Football, I'm glad to see it. In a couple of weeks I'll be having my 40th High School Reunion. It sure doesn't seem like it has been that long. It seems like my high school classmates look really old! I guess they are all thinking the same about me.

Good news from Santa Emilia, Nicaragua both the Medical Center and the church are coming right along. The walls on the Medical center are almost complete and they are starting on the outside roof. I would guess the building itself will be finished in a month or two. I am not sure when the government will get the Medical Center staffed and up and running. I will let you know as I hear more news.

If there are any members of the church who are interested in going on the mission trip to Santa Emilia, this coming Jan. 30th thru Feb. 6th, 2017, I need to know really soon. The trip is filling up fast. The cost of the trip is \$450 per person plus your airplane ticket. As I stated in church a few times I will be going with my daughter Ashley. I would love for several of you to go along with us. Right now the cost of the airplane ticket is \$750 per person. Please pray about this and see if you feel God calling you to go on an international mission trip.

Don't forget we will be having Frankie and Phyllis Vallens as our musical guests on September 24th at 6:30 p.m. We will have a light supper fellowship (Sloppy Jo's) starting at 5:30 p.m. Mary Compton will contact you if you are to bring something. I hope to see many of you here.

I hope each of you have a truly blessed week.

Your Servant in Christ,

Electricity

I don't understand electricity, but I know it works. A flip of a switch brings light into a room or sends sound through a microphone.

I don't understand God's power, but I know He's the Omnipotent One. He provides power needed for every task, every situation.

When an electrical appliance fails to work, the first checkpoint is whether or not it is plugged into the power source. So it is with our lives. If things aren't working properly, we must check to be sure we are properly connected to the Eternal Source of Power and "filled" daily "with the Spirit." Ephesians 5:18. There is never a power shortage with God!

~Mildred Burger

Five year old Sara sat lovingly petting her cat at family devotions. The lesson was about taking good care of pets. The question was asked, "Do you think Jesus had pets when he was a boy and if so what kind?" The family agreed that perhaps he had a dog or cat. Sara was asked, "Do you think Jesus helped change the kitty litter?" Thoughtfully she considered the question, and then brightly said, "Nope, Jesus said, 'let there be sand!'"

A Message from Pastor Shue

How about this beautiful early fall weather we had this past week end. The cool mornings and not so hot days are fine by me. This is also the start of football season as well.

Doesn't matter if it is High School, College, or Professional Football, I'm glad to see it. In a couple of weeks I'll be having my 40th High School Reunion. It sure doesn't seem like it has been that long. It seems like my high school classmates look really old! I guess they are all thinking the same about me.

Good news from Santa Emilia, Nicaragua both the Medical Center and the church are coming right along. The walls on the Medical center are almost complete and they are starting on the outside roof. I would guess the building itself will be finished in a month or two. I am not sure when the government will get the Medical Center staffed and up and running. I will let you know as I hear more news.

If there are any members of the church who are interested in going on the mission trip to Santa Emilia, this coming Jan. 30th thru Feb. 6th, 2017, I need to know really soon. The trip is filling up fast. The cost of the trip is \$450 per person plus your airplane ticket. As I stated in church a few times I will be going with my daughter Ashley. I would love for several of you to go along with us. Right now the cost of the airplane ticket is \$750 per person. Please pray about this and see if you feel God calling you to go on an international mission trip.

Don't forget we will be having Frankie and Phyllis Vallens as our musical guests on September 24th at 6:30 p.m. We will have a light supper fellowship (Sloppy Jo's) starting at 5:30 p.m. Mary Compton will contact you if you are to bring something. I hope to see many of you here.

I hope each of you have a truly blessed week.

Your Servant in Christ,

Pastor Claude

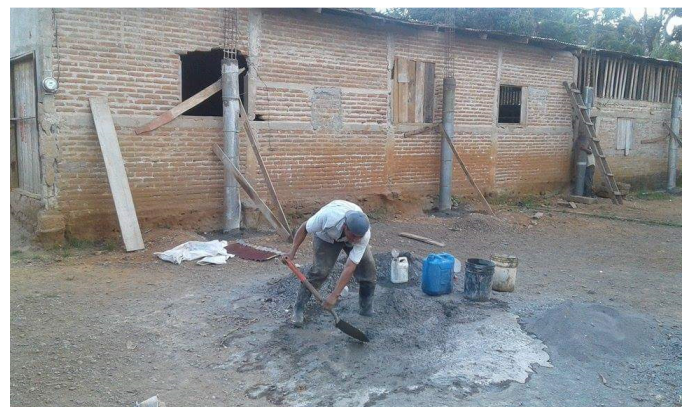

Progress is being made on the Medical Center.

They are already working on the roof.

Soon they will have the outside work done and can start building the rooms inside.

The congregation is moving right along on their church too. This man mixes concrete for the support columns.

These support columns are on the fourth wall of the sanctuary.

The columns go up to the roof line and will help support the new wall as well as the 2x4 rafters to which tin will be added to complete the roof.

Almost Here

Saturday, September 24th, 6:30 p.m. we will be privileged to have Frankie and Phyllis Valens in our sanctuary. **The Fellowship Committee has planned a light supper (sloppy Jo's) at 5:30 before the concert.** Bring a friend and come and enjoy some good music, fellowship, and testimony. A free will offering will be taken for the Valleng's.

Doesn't matter if it is High School, College, or Professional Football, I'm glad to see it. In a couple of weeks I'll be having my 40th High School Reunion. It sure doesn't seem like it has been that long. It seems like my high school classmates look really old! I guess they are all thinking the same about me.

Good news from Santa Emilia, Nicaragua both the Medical Center and the church are coming right along. The walls on the Medical center are almost complete and they are starting on the outside roof. I would guess the building itself will be finished in a month or two. I am not sure when the government will get the Medical Center staffed and up and running. I will let you know as I hear more news.

If there are any members of the church who are interested in going on the mission trip to Santa Emilia, this coming Jan. 30th thru Feb. 6th, 2017, I need to know really soon. The trip is filling up fast. The cost of the trip is \$450 per person plus your airplane ticket. As I stated in church a few times I will be going with my daughter Ashley. I would love for several of you to go along with us. Right now the cost of the airplane ticket is \$750 per person. Please pray about this and see if you feel God calling you to go on an international mission trip.

Don't forget we will be having Frankie and Phyllis Vallens as our musical guests on September 24th at 6:30 p.m. We will have a light supper fellowship (Sloppy Jo's) starting at 5:30 p.m. Mary Compton will contact you if you are to bring something. I hope to see many of you here.

I hope each of you have a truly blessed week.

Your Servant in Christ,

Pastor Claude

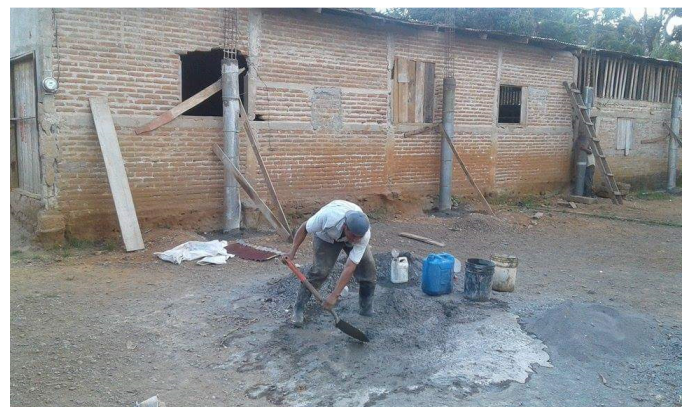

Progress is being made on the Medical Center.

They are already working on the roof.

Soon they will have the outside work done and can start building the rooms inside.

The congregation is moving right along on their church too. This man mixes concrete for the support columns.

These support columns are on the fourth wall of the sanctuary.

The columns go up to the roof line and will help support the new wall as well as the 2x4 rafters to which tin will be added to complete the roof.

Almost Here

Saturday, September 24th, 6:30 p.m. we will be privileged to have Frankie and Phyllis Valens in our sanctuary. **The Fellowship Committee has planned a light supper (sloppy Jo's) at 5:30 before the concert.** Bring a friend and come and enjoy some good music, fellowship, and testimony. A free will offering will be taken for the Vallens's.

Electricity

I don't understand electricity, but I know it works. A flip of a switch brings light into a room or sends sound through a microphone.

I don't understand God's power, but I know He's the Omnipotent One. He provides power needed for every task, every situation.

When an electrical appliance fails to work, the first checkpoint is whether or not it is plugged into the power source. So it is with our lives. If things aren't working properly, we must check to be sure we are properly connected to the Eternal Source of Power and "filled" daily "with the Spirit." Ephesians 5:18. There is never a power shortage with God!

~Mildred Burger

Five year old Sara sat lovingly petting her cat at family devotions. The lesson was about taking good care of pets. The question was asked, "Do you think Jesus had pets when he was a boy and if so what kind?" The family agreed that perhaps he had a dog or cat. Sara was asked, "Do you think Jesus helped change the kitty litter?" Thoughtfully she considered the question, and then brightly said, "Nope, Jesus said, 'let there be sand!'"

Electricity

I don't understand electricity, but I know it works. A flip of a switch brings light into a room or sends sound through a microphone.

I don't understand God's power, but I know He's the Omnipotent One. He provides power needed for every task, every situation.

When an electrical appliance fails to work, the first checkpoint is whether or not it is plugged into the power source. So it is with our lives. If things aren't working properly, we must check to be sure we are properly connected to the Eternal Source of Power and "filled" daily "with the Spirit." Ephesians 5:18. There is never a power shortage with God!

~Mildred Burger

Five year old Sara sat lovingly petting her cat at family devotions. The lesson was about taking good care of pets. The question was asked, "Do you think Jesus had pets when he was a boy and if so what kind?" The family agreed that perhaps he had a dog or cat. Sara was asked, "Do you think Jesus helped change the kitty litter?" Thoughtfully she considered the question, and then brightly said, "Nope, Jesus said, 'let there be sand!'"

A Message from Pastor Shue

How about this beautiful early fall weather we had this past week end. The cool mornings and not so hot days are fine by me. This is also the start of football season as well.

Doesn't matter if it is High School, College, or Professional Football, I'm glad to see it. In a couple of weeks I'll be having my 40th High School Reunion. It sure doesn't seem like it has been that long. It seems like my high school classmates look really old! I guess they are all thinking the same about me.

Good news from Santa Emilia, Nicaragua both the Medical Center and the church are coming right along. The walls on the Medical center are almost complete and they are starting on the outside roof. I would guess the building itself will be finished in a month or two. I am not sure when the government will get the Medical Center staffed and up and running. I will let you know as I hear more news.

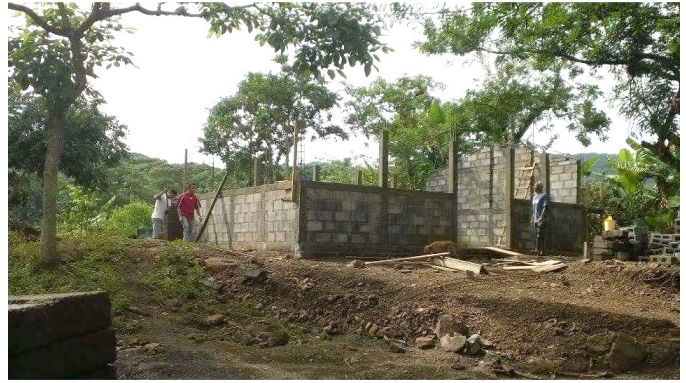

If there are any members of the church who are interested in going on the mission trip to Santa Emilia, this coming Jan. 30th thru Feb. 6th, 2017, I need to know really soon. The trip is filling up fast. The cost of the trip is \$450 per person plus your airplane ticket. As I stated in church a few times I will be going with my daughter Ashley. I would love for several of you to go along with us. Right now the cost of the airplane ticket is \$750 per person. Please pray about this and see if you feel God calling you to go on an international mission trip.

Don't forget we will be having Frankie and Phyllis Vallens as our musical guests on September 24th at 6:30 p.m. We will have a light supper fellowship (Sloppy Jo's) starting at 5:30 p.m. Mary Compton will contact you if you are to bring something. I hope to see many of you here.

I hope each of you have a truly blessed week.

Your Servant in Christ,

Pastor Claude

Progress is being made on the Medical Center.

They are already working on the roof.

Soon they will have the outside work done and can start building the rooms inside.

The congregation is moving right along on their church too. This man mixes concrete for the support columns.

These support columns are on the fourth wall of the sanctuary.

The columns go up to the roof line and will help support the new wall as well as the 2x4 rafters to which tin will be added to complete the roof.

Almost Here

Saturday, September 24th, 6:30 p.m. we will be privileged to have Frankie and Phyllis Valens in our sanctuary. **The Fellowship Committee has planned a light supper (sloppy Jo's) at 5:30 before the concert.** Bring a friend and come and enjoy some good music, fellowship, and testimony. A free will offering will be taken for the Vallens's.

Electricity

I don't understand electricity, but I know it works. A flip of a switch brings light into a room or sends sound through a microphone.

I don't understand God's power, but I know He's the Omnipotent One. He provides power needed for every task, every situation.

When an electrical appliance fails to work, the first checkpoint is whether or not it is plugged into the power source. So it is with our lives. If things aren't working properly, we must check to be sure we are properly connected to the Eternal Source of Power and "filled" daily "with the Spirit." Ephesians 5:18. There is never a power shortage with God!

~Mildred Burger

Five year old Sara sat lovingly petting her cat at family devotions. The lesson was about taking good care of pets. The question was asked, "Do you think Jesus had pets when he was a boy and if so what kind?" The family agreed that perhaps he had a dog or cat. Sara was asked, "Do you think Jesus helped change the kitty litter?" Thoughtfully she considered the question, and then brightly said, "Nope, Jesus said, 'let there be sand!'"

A Message from Pastor Shue

How about this beautiful early fall weather we had this past week end. The cool mornings and not so hot days are fine by me. This is also the start of football season as well.

Doesn't matter if it is High School, College, or Professional Football, I'm glad to see it. In a couple of weeks I'll be having my 40th High School Reunion. It sure doesn't seem like it has been that long. It seems like my high school classmates look really old! I guess they are all thinking the same about me.

Good news from Santa Emilia, Nicaragua both the Medical Center and the church are coming right along. The walls on the Medical center are almost complete and they are starting on the outside roof. I would guess the building itself will be finished in a month or two. I am not sure when the government will get the Medical Center staffed and up and running. I will let you know as I hear more news.

If there are any members of the church who are interested in going on the mission trip to Santa Emilia, this coming Jan. 30th thru Feb. 6th, 2017, I need to know really soon. The trip is filling up fast. The cost of the trip is \$450 per person plus your airplane ticket. As I stated in church a few times I will be going with my daughter Ashley. I would love for several of you to go along with us. Right now the cost of the airplane ticket is \$750 per person. Please pray about this and see if you feel God calling you to go on an international mission trip.

Don't forget we will be having Frankie and Phyllis Vallens as our musical guests on September 24th at 6:30 p.m. We will have a light supper fellowship (Sloppy Jo's) starting at 5:30 p.m. Mary Compton will contact you if you are to bring something. I hope to see many of you here.

I hope each of you have a truly blessed week.

Your Servant in Christ,

Pastor Claude

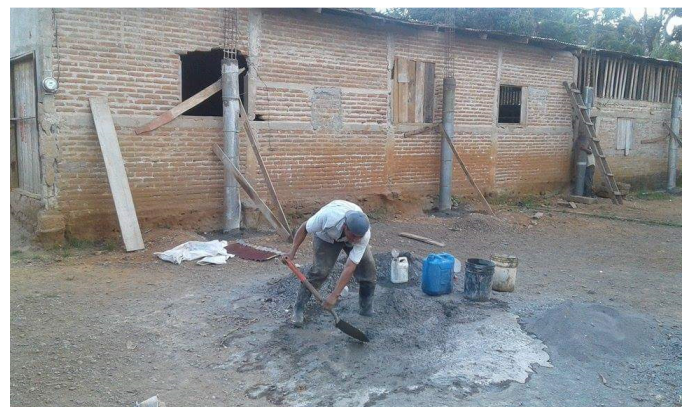

Progress is being made on the Medical Center.

They are already working on the roof.

Soon they will have the outside work done and can start building the rooms inside.

The congregation is moving right along on their church too. This man mixes concrete for the support columns.

These support columns are on the fourth wall of the sanctuary.

The columns go up to the roof line and will help support the new wall as well as the 2x4 rafters to which tin will be added to complete the roof.

Almost Here

Saturday, September 24th, 6:30 p.m. we will be privileged to have Frankie and Phyllis Valens in our sanctuary. **The Fellowship Committee has planned a light supper (sloppy Jo's) at 5:30 before the concert.** Bring a friend and come and enjoy some good music, fellowship, and testimony. A free will offering will be taken for the Valleng's.

Electricity

I don't understand electricity, but I know it works. A flip of a switch brings light into a room or sends sound through a microphone.

I don't understand God's power, but I know He's the Omnipotent One. He provides power needed for every task, every situation.

When an electrical appliance fails to work, the first checkpoint is whether or not it is plugged into the power source. So it is with our lives. If things aren't working properly, we must check to be sure we are properly connected to the Eternal Source of Power and "filled" daily "with the Spirit." Ephesians 5:18. There is never a power shortage with God!

~Mildred Burger

Five year old Sara sat lovingly petting her cat at family devotions. The lesson was about taking good care of pets. The question was asked, "Do you think Jesus had pets when he was a boy and if so what kind?" The family agreed that perhaps he had a dog or cat. Sara was asked, "Do you think Jesus helped change the kitty litter?" Thoughtfully she considered the question, and then brightly said, "Nope, Jesus said, 'let there be sand!'"

A Message from Pastor Shue

How about this beautiful early fall weather we had this past week end. The cool mornings and not so hot days are fine by me. This is also the start of football season as well.

Doesn't matter if it is High School, College, or Professional Football, I'm glad to see it. In a couple of weeks I'll be having my 40th High School Reunion. It sure doesn't seem like it has been that long. It seems like my high school classmates look really old! I guess they are all thinking the same about me.

Good news from Santa Emilia, Nicaragua both the Medical Center and the church are coming right along. The walls on the Medical center are almost complete and they are starting on the outside roof. I would guess the building itself will be finished in a month or two. I am not sure when the government will get the Medical Center staffed and up and running. I will let you know as I hear more news.

If there are any members of the church who are interested in going on the mission trip to Santa Emilia, this coming Jan. 30th thru Feb. 6th, 2017, I need to know really soon. The trip is filling up fast. The cost of the trip is \$450 per person plus your airplane ticket. As I stated in church a few times I will be going with my daughter Ashley. I would love for several of you to go along with us. Right now the cost of the airplane ticket is \$750 per person. Please pray about this and see if you feel God calling you to go on an international mission trip.

Don't forget we will be having Frankie and Phyllis Vallens as our musical guests on September 24th at 6:30 p.m. We will have a light supper fellowship (Sloppy Jo's) starting at 5:30 p.m. Mary Compton will contact you if you are to bring something. I hope to see many of you here.

I hope each of you have a truly blessed week.

Your Servant in Christ,

Pastor Claude

Electricity

I don't understand electricity, but I know it works. A flip of a switch brings light into a room or sends sound through a microphone.

I don't understand God's power, but I know He's the Omnipotent One. He provides power needed for every task, every situation.

When an electrical appliance fails to work, the first checkpoint is whether or not it is plugged into the power source. So it is with our lives. If things aren't working properly, we must check to be sure we are properly connected to the Eternal Source of Power and "filled" daily "with the Spirit." Ephesians 5:18. There is never a power shortage with God!

~Mildred Burger

Five year old Sara sat lovingly petting her cat at family devotions. The lesson was about taking good care of pets. The question was asked, "Do you think Jesus had pets when he was a boy and if so what kind?" The family agreed that perhaps he had a dog or cat. Sara was asked, "Do you think Jesus helped change the kitty litter?" Thoughtfully she considered the question, and then brightly said, "Nope, Jesus said, 'let there be sand!'"

A Message from Pastor Shue

How about this beautiful early fall weather we had this past week end. The cool mornings and not so hot days are fine by me. This is also the start of football season as well.

Doesn't matter if it is High School, College, or Professional Football, I'm glad to see it. In a couple of weeks I'll be having my 40th High School Reunion. It sure doesn't seem like it has been that long. It seems like my high school classmates look really old! I guess they are all thinking the same about me.

Good news from Santa Emilia, Nicaragua both the Medical Center and the church are coming right along. The walls on the Medical center are almost complete and they are starting on the outside roof. I would guess the building itself will be finished in a month or two. I am not sure when the government will get the Medical Center staffed and up and running. I will let you know as I hear more news.

If there are any members of the church who are interested in going on the mission trip to Santa Emilia, this coming Jan. 30th thru Feb. 6th, 2017, I need to know really soon. The trip is filling up fast. The cost of the trip is \$450 per person plus your airplane ticket. As I stated in church a few times I will be going with my daughter Ashley. I would love for several of you to go along with us. Right now the cost of the airplane ticket is \$750 per person. Please pray about this and see if you feel God calling you to go on an international mission trip.

Don't forget we will be having Frankie and Phyllis Vallens as our musical guests on September 24th at 6:30 p.m. We will have a light supper fellowship (Sloppy Jo's) starting at 5:30 p.m. Mary Compton will contact you if you are to bring something. I hope to see many of you here.

I hope each of you have a truly blessed week.

Your Servant in Christ,

Pastor Claude

Progress is being made on the Medical Center.

They are already working on the roof.

Soon they will have the outside work done and can start building the rooms inside.

The congregation is moving right along on their church too. This man mixes concrete for the support columns.

These support columns are on the fourth wall of the sanctuary.

The columns go up to the roof line and will help support the new wall as well as the 2x4 rafters to which tin will be added to complete the roof.

Almost Here

Saturday, September 24th, 6:30 p.m. we will be privileged to have Frankie and Phyllis Valens in our sanctuary. **The Fellowship Committee has planned a light supper (sloppy Jo's) at 5:30 before the concert.** Bring a friend and come and enjoy some good music, fellowship, and testimony. A free will offering will be taken for the Valleng's.

Doesn't matter if it is High School, College, or Professional Football, I'm glad to see it. In a couple of weeks I'll be having my 40th High School Reunion. It sure doesn't seem like it has been that long. It seems like my high school classmates look really old! I guess they are all thinking the same about me.

Good news from Santa Emilia, Nicaragua both the Medical Center and the church are coming right along. The walls on the Medical center are almost complete and they are starting on the outside roof. I would guess the building itself will be finished in a month or two. I am not sure when the government will get the Medical Center staffed and up and running. I will let you know as I hear more news.

If there are any members of the church who are interested in going on the mission trip to Santa Emilia, this coming Jan. 30th thru Feb. 6th, 2017, I need to know really soon. The trip is filling up fast. The cost of the trip is \$450 per person plus your airplane ticket. As I stated in church a few times I will be going with my daughter Ashley. I would love for several of you to go along with us. Right now the cost of the airplane ticket is \$750 per person. Please pray about this and see if you feel God calling you to go on an international mission trip.

Don't forget we will be having Frankie and Phyllis Vallens as our musical guests on September 24th at 6:30 p.m. We will have a light supper fellowship (Sloppy Jo's) starting at 5:30 p.m. Mary Compton will contact you if you are to bring something. I hope to see many of you here.

I hope each of you have a truly blessed week.

Your Servant in Christ,

Pastor Claude

Progress is being made on the Medical Center.

They are already working on the roof.

Soon they will have the outside work done and can start building the rooms inside.

The congregation is moving right along on their church too. This man mixes concrete for the support columns.

These support columns are on the fourth wall of the sanctuary.

The columns go up to the roof line and will help support the new wall as well as the 2x4 rafters to which tin will be added to complete the roof.

Almost Here

Saturday, September 24th, 6:30 p.m. we will be privileged to have Frankie and Phyllis Valens in our sanctuary. **The Fellowship Committee has planned a light supper (sloppy Jo's) at 5:30 before the concert.** Bring a friend and come and enjoy some good music, fellowship, and testimony. A free will offering will be taken for the Vallens's.

Electricity

I don't understand electricity, but I know it works. A flip of a switch brings light into a room or sends sound through a microphone.

I don't understand God's power, but I know He's the Omnipotent One. He provides power needed for every task, every situation.

When an electrical appliance fails to work, the first checkpoint is whether or not it is plugged into the power source. So it is with our lives. If things aren't working properly, we must check to be sure we are properly connected to the Eternal Source of Power and "filled" daily "with the Spirit." Ephesians 5:18. There is never a power shortage with God!

~Mildred Burger

Five year old Sara sat lovingly petting her cat at family devotions. The lesson was about taking good care of pets. The question was asked, "Do you think Jesus had pets when he was a boy and if so what kind?" The family agreed that perhaps he had a dog or cat. Sara was asked, "Do you think Jesus helped change the kitty litter?" Thoughtfully she considered the question, and then brightly said, "Nope, Jesus said, 'let there be sand!'"

Electricity

I don't understand electricity, but I know it works. A flip of a switch brings light into a room or sends sound through a microphone.

I don't understand God's power, but I know He's the Omnipotent One. He provides power needed for every task, every situation.

When an electrical appliance fails to work, the first checkpoint is whether or not it is plugged into the power source. So it is with our lives. If things aren't working properly, we must check to be sure we are properly connected to the Eternal Source of Power and "filled" daily "with the Spirit." Ephesians 5:18. There is never a power shortage with God!

~Mildred Burger

Five year old Sara sat lovingly petting her cat at family devotions. The lesson was about taking good care of pets. The question was asked, "Do you think Jesus had pets when he was a boy and if so what kind?" The family agreed that perhaps he had a dog or cat. Sara was asked, "Do you think Jesus helped change the kitty litter?" Thoughtfully she considered the question, and then brightly said, "Nope, Jesus said, 'let there be sand!'"

A Message from Pastor Shue

How about this beautiful early fall weather we had this past week end. The cool mornings and not so hot days are fine by me. This is also the start of football season as well.

Doesn't matter if it is High School, College, or Professional Football, I'm glad to see it. In a couple of weeks I'll be having my 40th High School Reunion. It sure doesn't seem like it has been that long. It seems like my high school classmates look really old! I guess they are all thinking the same about me.

Good news from Santa Emilia, Nicaragua both the Medical Center and the church are coming right along. The walls on the Medical center are almost complete and they are starting on the outside roof. I would guess the building itself will be finished in a month or two. I am not sure when the government will get the Medical Center staffed and up and running. I will let you know as I hear more news.

If there are any members of the church who are interested in going on the mission trip to Santa Emilia, this coming Jan. 30th thru Feb. 6th, 2017, I need to know really soon. The trip is filling up fast. The cost of the trip is \$450 per person plus your airplane ticket. As I stated in church a few times I will be going with my daughter Ashley. I would love for several of you to go along with us. Right now the cost of the airplane ticket is \$750 per person. Please pray about this and see if you feel God calling you to go on an international mission trip.

Don't forget we will be having Frankie and Phyllis Vallens as our musical guests on September 24th at 6:30 p.m. We will have a light supper fellowship (Sloppy Jo's) starting at 5:30 p.m. Mary Compton will contact you if you are to bring something. I hope to see many of you here.

I hope each of you have a truly blessed week.

Your Servant in Christ,

Pastor Claude

Progress is being made on the Medical Center.

They are already working on the roof.

Soon they will have the outside work done and can start building the rooms inside.

The congregation is moving right along on their church too. This man mixes concrete for the support columns.

These support columns are on the fourth wall of the sanctuary.

The columns go up to the roof line and will help support the new wall as well as the 2x4 rafters to which tin will be added to complete the roof.

Almost Here

Saturday, September 24th, 6:30 p.m. we will be privileged to have Frankie and Phyllis Valens in our sanctuary. **The Fellowship Committee has planned a light supper (sloppy Jo's) at 5:30 before the concert.** Bring a friend and come and enjoy some good music, fellowship, and testimony. A free will offering will be taken for the Vallens's.

Electricity

I don't understand electricity, but I know it works. A flip of a switch brings light into a room or sends sound through a microphone.

I don't understand God's power, but I know He's the Omnipotent One. He provides power needed for every task, every situation.

When an electrical appliance fails to work, the first checkpoint is whether or not it is plugged into the power source. So it is with our lives. If things aren't working properly, we must check to be sure we are properly connected to the Eternal Source of Power and "filled" daily "with the Spirit." Ephesians 5:18. There is never a power shortage with God!

~Mildred Burger

Five year old Sara sat lovingly petting her cat at family devotions. The lesson was about taking good care of pets. The question was asked, "Do you think Jesus had pets when he was a boy and if so what kind?" The family agreed that perhaps he had a dog or cat. Sara was asked, "Do you think Jesus helped change the kitty litter?" Thoughtfully she considered the question, and then brightly said, "Nope, Jesus said, 'let there be sand!'"

A Message from Pastor Shue

How about this beautiful early fall weather we had this past week end. The cool mornings and not so hot days are fine by me. This is also the start of football season as well.

Doesn't matter if it is High School, College, or Professional Football, I'm glad to see it. In a couple of weeks I'll be having my 40th High School Reunion. It sure doesn't seem like it has been that long. It seems like my high school classmates look really old! I guess they are all thinking the same about me.

Good news from Santa Emilia, Nicaragua both the Medical Center and the church are coming right along. The walls on the Medical center are almost complete and they are starting on the outside roof. I would guess the building itself will be finished in a month or two. I am not sure when the government will get the Medical Center staffed and up and running. I will let you know as I hear more news.

If there are any members of the church who are interested in going on the mission trip to Santa Emilia, this coming Jan. 30th thru Feb. 6th, 2017, I need to know really soon. The trip is filling up fast. The cost of the trip is \$450 per person plus your airplane ticket. As I stated in church a few times I will be going with my daughter Ashley. I would love for several of you to go along with us. Right now the cost of the airplane ticket is \$750 per person. Please pray about this and see if you feel God calling you to go on an international mission trip.

Don't forget we will be having Frankie and Phyllis Vallens as our musical guests on September 24th at 6:30 p.m. We will have a light supper fellowship (Sloppy Jo's) starting at 5:30 p.m. Mary Compton will contact you if you are to bring something. I hope to see many of you here.

I hope each of you have a truly blessed week.

Your Servant in Christ,

Pastor Claude

Progress is being made on the Medical Center.

They are already working on the roof.

Soon they will have the outside work done and can start building the rooms inside.

The congregation is moving right along on their church too. This man mixes concrete for the support columns.

These support columns are on the fourth wall of the sanctuary.

The columns go up to the roof line and will help support the new wall as well as the 2x4 rafters to which tin will be added to complete the roof.

Almost Here

Saturday, September 24th, 6:30 p.m. we will be privileged to have Frankie and Phyllis Valens in our sanctuary. **The Fellowship Committee has planned a light supper (sloppy Jo's) at 5:30 before the concert.** Bring a friend and come and enjoy some good music, fellowship, and testimony. A free will offering will be taken for the Valleng's.

Electricity

I don't understand electricity, but I know it works. A flip of a switch brings light into a room or sends sound through a microphone.

I don't understand God's power, but I know He's the Omnipotent One. He provides power needed for every task, every situation.

When an electrical appliance fails to work, the first checkpoint is whether or not it is plugged into the power source. So it is with our lives. If things aren't working properly, we must check to be sure we are properly connected to the Eternal Source of Power and "filled" daily "with the Spirit." Ephesians 5:18. There is never a power shortage with God!

~Mildred Burger

Five year old Sara sat lovingly petting her cat at family devotions. The lesson was about taking good care of pets. The question was asked, "Do you think Jesus had pets when he was a boy and if so what kind?" The family agreed that perhaps he had a dog or cat. Sara was asked, "Do you think Jesus helped change the kitty litter?" Thoughtfully she considered the question, and then brightly said, "Nope, Jesus said, 'let there be sand!'"

A Message from Pastor Shue

How about this beautiful early fall weather we had this past week end. The cool mornings and not so hot days are fine by me. This is also the start of football season as well.

Doesn't matter if it is High School, College, or Professional Football, I'm glad to see it. In a couple of weeks I'll be having my 40th High School Reunion. It sure doesn't seem like it has been that long. It seems like my high school classmates look really old! I guess they are all thinking the same about me.

Good news from Santa Emilia, Nicaragua both the Medical Center and the church are coming right along. The walls on the Medical center are almost complete and they are starting on the outside roof. I would guess the building itself will be finished in a month or two. I am not sure when the government will get the Medical Center staffed and up and running. I will let you know as I hear more news.

If there are any members of the church who are interested in going on the mission trip to Santa Emilia, this coming Jan. 30th thru Feb. 6th, 2017, I need to know really soon. The trip is filling up fast. The cost of the trip is \$450 per person plus your airplane ticket. As I stated in church a few times I will be going with my daughter Ashley. I would love for several of you to go along with us. Right now the cost of the airplane ticket is \$750 per person. Please pray about this and see if you feel God calling you to go on an international mission trip.

Don't forget we will be having Frankie and Phyllis Vallens as our musical guests on September 24th at 6:30 p.m. We will have a light supper fellowship (Sloppy Jo's) starting at 5:30 p.m. Mary Compton will contact you if you are to bring something. I hope to see many of you here.

I hope each of you have a truly blessed week.

Your Servant in Christ,

Pastor Claude

Electricity

I don't understand electricity, but I know it works. A flip of a switch brings light into a room or sends sound through a microphone.

I don't understand God's power, but I know He's the Omnipotent One. He provides power needed for every task, every situation.

When an electrical appliance fails to work, the first checkpoint is whether or not it is plugged into the power source. So it is with our lives. If things aren't working properly, we must check to be sure we are properly connected to the Eternal Source of Power and "filled" daily "with the Spirit." Ephesians 5:18. There is never a power shortage with God!

~Mildred Burger

Five year old Sara sat lovingly petting her cat at family devotions. The lesson was about taking good care of pets. The question was asked, "Do you think Jesus had pets when he was a boy and if so what kind?" The family agreed that perhaps he had a dog or cat. Sara was asked, "Do you think Jesus helped change the kitty litter?" Thoughtfully she considered the question, and then brightly said, "Nope, Jesus said, 'let there be sand!'"

A Message from Pastor Shue

How about this beautiful early fall weather we had this past week end. The cool mornings and not so hot days are fine by me. This is also the start of football season as well.

Doesn't matter if it is High School, College, or Professional Football, I'm glad to see it. In a couple of weeks I'll be having my 40th High School Reunion. It sure doesn't seem like it has been that long. It seems like my high school classmates look really old! I guess they are all thinking the same about me.

Good news from Santa Emilia, Nicaragua both the Medical Center and the church are coming right along. The walls on the Medical center are almost complete and they are starting on the outside roof. I would guess the building itself will be finished in a month or two. I am not sure when the government will get the Medical Center staffed and up and running. I will let you know as I hear more news.

If there are any members of the church who are interested in going on the mission trip to Santa Emilia, this coming Jan. 30th thru Feb. 6th, 2017, I need to know really soon. The trip is filling up fast. The cost of the trip is \$450 per person plus your airplane ticket. As I stated in church a few times I will be going with my daughter Ashley. I would love for several of you to go along with us. Right now the cost of the airplane ticket is \$750 per person. Please pray about this and see if you feel God calling you to go on an international mission trip.

Don't forget we will be having Frankie and Phyllis Vallens as our musical guests on September 24th at 6:30 p.m. We will have a light supper fellowship (Sloppy Jo's) starting at 5:30 p.m. Mary Compton will contact you if you are to bring something. I hope to see many of you here.

I hope each of you have a truly blessed week.

Your Servant in Christ,

Pastor Claude

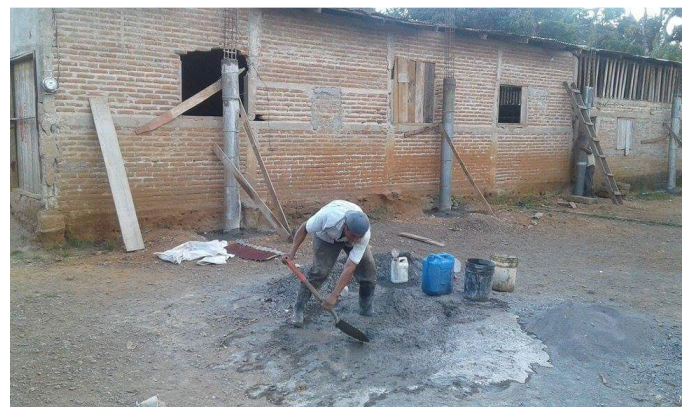

Progress is being made on the Medical Center.

They are already working on the roof.

Soon they will have the outside work done and can start building the rooms inside.

The congregation is moving right along on their church too. This man mixes concrete for the support columns.

These support columns are on the fourth wall of the sanctuary.

The columns go up to the roof line and will help support the new wall as well as the 2x4 rafters to which tin will be added to complete the roof.

Almost Here

Saturday, September 24th, 6:30 p.m. we will be privileged to have Frankie and Phyllis Valens in our sanctuary. **The Fellowship Committee has planned a light supper (sloppy Jo's) at 5:30 before the concert.** Bring a friend and come and enjoy some good music, fellowship, and testimony. A free will offering will be taken for the Vallens's.

Doesn't matter if it is High School, College, or Professional Football, I'm glad to see it. In a couple of weeks I'll be having my 40th High School Reunion. It sure doesn't seem like it has been that long. It seems like my high school classmates look really old! I guess they are all thinking the same about me.

Good news from Santa Emilia, Nicaragua both the Medical Center and the church are coming right along. The walls on the Medical center are almost complete and they are starting on the outside roof. I would guess the building itself will be finished in a month or two. I am not sure when the government will get the Medical Center staffed and up and running. I will let you know as I hear more news.

If there are any members of the church who are interested in going on the mission trip to Santa Emilia, this coming Jan. 30th thru Feb. 6th, 2017, I need to know really soon. The trip is filling up fast. The cost of the trip is \$450 per person plus your airplane ticket. As I stated in church a few times I will be going with my daughter Ashley. I would love for several of you to go along with us. Right now the cost of the airplane ticket is \$750 per person. Please pray about this and see if you feel God calling you to go on an international mission trip.

Don't forget we will be having Frankie and Phyllis Vallens as our musical guests on September 24th at 6:30 p.m. We will have a light supper fellowship (Sloppy Jo's) starting at 5:30 p.m. Mary Compton will contact you if you are to bring something. I hope to see many of you here.

I hope each of you have a truly blessed week.

Your Servant in Christ,

Pastor Claude

Progress is being made on the Medical Center.

They are already working on the roof.

Soon they will have the outside work done and can start building the rooms inside.

The congregation is moving right along on their church too. This man mixes concrete for the support columns.

These support columns are on the fourth wall of the sanctuary.

The columns go up to the roof line and will help support the new wall as well as the 2x4 rafters to which tin will be added to complete the roof.

Almost Here

Saturday, September 24th, 6:30 p.m. we will be privileged to have Frankie and Phyllis Valens in our sanctuary. **The Fellowship Committee has planned a light supper (sloppy Jo's) at 5:30 before the concert.** Bring a friend and come and enjoy some good music, fellowship, and testimony. A free will offering will be taken for the Vallens's.

Electricity

I don't understand electricity, but I know it works. A flip of a switch brings light into a room or sends sound through a microphone.

I don't understand God's power, but I know He's the Omnipotent One. He provides power needed for every task, every situation.

When an electrical appliance fails to work, the first checkpoint is whether or not it is plugged into the power source. So it is with our lives. If things aren't working properly, we must check to be sure we are properly connected to the Eternal Source of Power and "filled" daily "with the Spirit." Ephesians 5:18. There is never a power shortage with God!

~Mildred Burger

Five year old Sara sat lovingly petting her cat at family devotions. The lesson was about taking good care of pets. The question was asked, "Do you think Jesus had pets when he was a boy and if so what kind?" The family agreed that perhaps he had a dog or cat. Sara was asked, "Do you think Jesus helped change the kitty litter?" Thoughtfully she considered the question, and then brightly said, "Nope, Jesus said, 'let there be sand!'"

Electricity

I don't understand electricity, but I know it works. A flip of a switch brings light into a room or sends sound through a microphone.

I don't understand God's power, but I know He's the Omnipotent One. He provides power needed for every task, every situation.

When an electrical appliance fails to work, the first checkpoint is whether or not it is plugged into the power source. So it is with our lives. If things aren't working properly, we must check to be sure we are properly connected to the Eternal Source of Power and "filled" daily "with the Spirit." Ephesians 5:18. There is never a power shortage with God!

~Mildred Burger

Five year old Sara sat lovingly petting her cat at family devotions. The lesson was about taking good care of pets. The question was asked, "Do you think Jesus had pets when he was a boy and if so what kind?" The family agreed that perhaps he had a dog or cat. Sara was asked, "Do you think Jesus helped change the kitty litter?" Thoughtfully she considered the question, and then brightly said, "Nope, Jesus said, 'let there be sand!'"

A Message from Pastor Shue

How about this beautiful early fall weather we had this past week end. The cool mornings and not so hot days are fine by me. This is also the start of football season as well.

Doesn't matter if it is High School, College, or Professional Football, I'm glad to see it. In a couple of weeks I'll be having my 40th High School Reunion. It sure doesn't seem like it has been that long. It seems like my high school classmates look really old! I guess they are all thinking the same about me.

Good news from Santa Emilia, Nicaragua both the Medical Center and the church are coming right along. The walls on the Medical center are almost complete and they are starting on the outside roof. I would guess the building itself will be finished in a month or two. I am not sure when the government will get the Medical Center staffed and up and running. I will let you know as I hear more news.

If there are any members of the church who are interested in going on the mission trip to Santa Emilia, this coming Jan. 30th thru Feb. 6th, 2017, I need to know really soon. The trip is filling up fast. The cost of the trip is \$450 per person plus your airplane ticket. As I stated in church a few times I will be going with my daughter Ashley. I would love for several of you to go along with us. Right now the cost of the airplane ticket is \$750 per person. Please pray about this and see if you feel God calling you to go on an international mission trip.

Don't forget we will be having Frankie and Phyllis Vallens as our musical guests on September 24th at 6:30 p.m. We will have a light supper fellowship (Sloppy Jo's) starting at 5:30 p.m. Mary Compton will contact you if you are to bring something. I hope to see many of you here.

I hope each of you have a truly blessed week.

Your Servant in Christ,

Pastor Claude

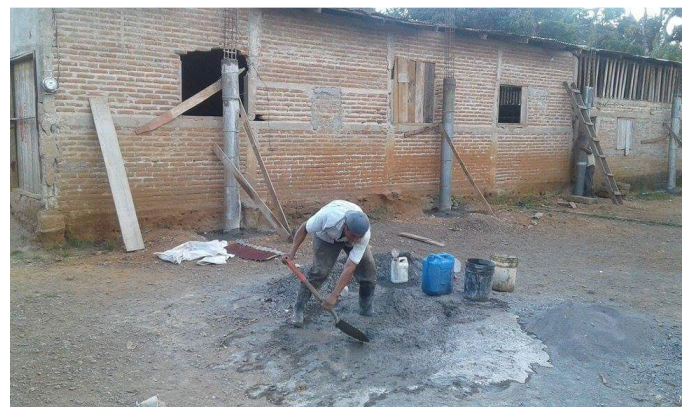

Progress is being made on the Medical Center.

They are already working on the roof.

Soon they will have the outside work done and can start building the rooms inside.

The congregation is moving right along on their church too. This man mixes concrete for the support columns.

These support columns are on the fourth wall of the sanctuary.

The columns go up to the roof line and will help support the new wall as well as the 2x4 rafters to which tin will be added to complete the roof.

Almost Here

Saturday, September 24th, 6:30 p.m. we will be privileged to have Frankie and Phyllis Valens in our sanctuary. **The Fellowship Committee has planned a light supper (sloppy Jo's) at 5:30 before the concert.** Bring a friend and come and enjoy some good music, fellowship, and testimony. A free will offering will be taken for the Vallens's.

Electricity

I don't understand electricity, but I know it works. A flip of a switch brings light into a room or sends sound through a microphone.

I don't understand God's power, but I know He's the Omnipotent One. He provides power needed for every task, every situation.

When an electrical appliance fails to work, the first checkpoint is whether or not it is plugged into the power source. So it is with our lives. If things aren't working properly, we must check to be sure we are properly connected to the Eternal Source of Power and "filled" daily "with the Spirit." Ephesians 5:18. There is never a power shortage with God!

~Mildred Burger

Five year old Sara sat lovingly petting her cat at family devotions. The lesson was about taking good care of pets. The question was asked, "Do you think Jesus had pets when he was a boy and if so what kind?" The family agreed that perhaps he had a dog or cat. Sara was asked, "Do you think Jesus helped change the kitty litter?" Thoughtfully she considered the question, and then brightly said, "Nope, Jesus said, 'let there be sand!'"

A Message from Pastor Shue

How about this beautiful early fall weather we had this past week end. The cool mornings and not so hot days are fine by me. This is also the start of football season as well.

Doesn't matter if it is High School, College, or Professional Football, I'm glad to see it. In a couple of weeks I'll be having my 40th High School Reunion. It sure doesn't seem like it has been that long. It seems like my high school classmates look really old! I guess they are all thinking the same about me.

Good news from Santa Emilia, Nicaragua both the Medical Center and the church are coming right along. The walls on the Medical center are almost complete and they are starting on the outside roof. I would guess the building itself will be finished in a month or two. I am not sure when the government will get the Medical Center staffed and up and running. I will let you know as I hear more news.

If there are any members of the church who are interested in going on the mission trip to Santa Emilia, this coming Jan. 30th thru Feb. 6th, 2017, I need to know really soon. The trip is filling up fast. The cost of the trip is \$450 per person plus your airplane ticket. As I stated in church a few times I will be going with my daughter Ashley. I would love for several of you to go along with us. Right now the cost of the airplane ticket is \$750 per person. Please pray about this and see if you feel God calling you to go on an international mission trip.

Don't forget we will be having Frankie and Phyllis Vallens as our musical guests on September 24th at 6:30 p.m. We will have a light supper fellowship (Sloppy Jo's) starting at 5:30 p.m. Mary Compton will contact you if you are to bring something. I hope to see many of you here.

I hope each of you have a truly blessed week.

Your Servant in Christ,

Pastor Claude

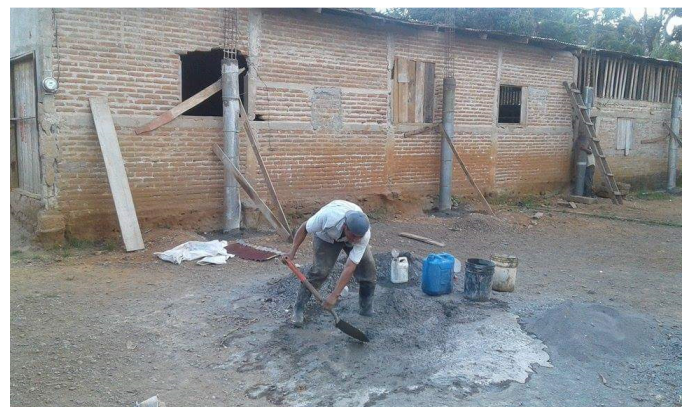

Progress is being made on the Medical Center.

They are already working on the roof.

Soon they will have the outside work done and can start building the rooms inside.

The congregation is moving right along on their church too. This man mixes concrete for the support columns.

These support columns are on the fourth wall of the sanctuary.

The columns go up to the roof line and will help support the new wall as well as the 2x4 rafters to which tin will be added to complete the roof.

Almost Here

Saturday, September 24th, 6:30 p.m. we will be privileged to have Frankie and Phyllis Valens in our sanctuary. **The Fellowship Committee has planned a light supper (sloppy Jo's) at 5:30 before the concert.** Bring a friend and come and enjoy some good music, fellowship, and testimony. A free will offering will be taken for the Vallens's.

Electricity

I don't understand electricity, but I know it works. A flip of a switch brings light into a room or sends sound through a microphone.

I don't understand God's power, but I know He's the Omnipotent One. He provides power needed for every task, every situation.

When an electrical appliance fails to work, the first checkpoint is whether or not it is plugged into the power source. So it is with our lives. If things aren't working properly, we must check to be sure we are properly connected to the Eternal Source of Power and "filled" daily "with the Spirit." Ephesians 5:18. There is never a power shortage with God!

~Mildred Burger

Five year old Sara sat lovingly petting her cat at family devotions. The lesson was about taking good care of pets. The question was asked, "Do you think Jesus had pets when he was a boy and if so what kind?" The family agreed that perhaps he had a dog or cat. Sara was asked, "Do you think Jesus helped change the kitty litter?" Thoughtfully she considered the question, and then brightly said, "Nope, Jesus said, 'let there be sand!'"

A Message from Pastor Shue

How about this beautiful early fall weather we had this past week end. The cool mornings and not so hot days are fine by me. This is also the start of football season as well.

Doesn't matter if it is High School, College, or Professional Football, I'm glad to see it. In a couple of weeks I'll be having my 40th High School Reunion. It sure doesn't seem like it has been that long. It seems like my high school classmates look really old! I guess they are all thinking the same about me.

Good news from Santa Emilia, Nicaragua both the Medical Center and the church are coming right along. The walls on the Medical center are almost complete and they are starting on the outside roof. I would guess the building itself will be finished in a month or two. I am not sure when the government will get the Medical Center staffed and up and running. I will let you know as I hear more news.

If there are any members of the church who are interested in going on the mission trip to Santa Emilia, this coming Jan. 30th thru Feb. 6th, 2017, I need to know really soon. The trip is filling up fast. The cost of the trip is \$450 per person plus your airplane ticket. As I stated in church a few times I will be going with my daughter Ashley. I would love for several of you to go along with us. Right now the cost of the airplane ticket is \$750 per person. Please pray about this and see if you feel God calling you to go on an international mission trip.

Don't forget we will be having Frankie and Phyllis Vallens as our musical guests on September 24th at 6:30 p.m. We will have a light supper fellowship (Sloppy Jo's) starting at 5:30 p.m. Mary Compton will contact you if you are to bring something. I hope to see many of you here.

I hope each of you have a truly blessed week.

Your Servant in Christ,

Pastor Claude

Electricity

I don't understand electricity, but I know it works. A flip of a switch brings light into a room or sends sound through a microphone.

I don't understand God's power, but I know He's the Omnipotent One. He provides power needed for every task, every situation.

When an electrical appliance fails to work, the first checkpoint is whether or not it is plugged into the power source. So it is with our lives. If things aren't working properly, we must check to be sure we are properly connected to the Eternal Source of Power and "filled" daily "with the Spirit." Ephesians 5:18. There is never a power shortage with God!

~Mildred Burger

Five year old Sara sat lovingly petting her cat at family devotions. The lesson was about taking good care of pets. The question was asked, "Do you think Jesus had pets when he was a boy and if so what kind?" The family agreed that perhaps he had a dog or cat. Sara was asked, "Do you think Jesus helped change the kitty litter?" Thoughtfully she considered the question, and then brightly said, "Nope, Jesus said, 'let there be sand!'"

A Message from Pastor Shue

How about this beautiful early fall weather we had this past week end. The cool mornings and not so hot days are fine by me. This is also the start of football season as well.

Doesn't matter if it is High School, College, or Professional Football, I'm glad to see it. In a couple of weeks I'll be having my 40th High School Reunion. It sure doesn't seem like it has been that long. It seems like my high school classmates look really old! I guess they are all thinking the same about me.

Good news from Santa Emilia, Nicaragua both the Medical Center and the church are coming right along. The walls on the Medical center are almost complete and they are starting on the outside roof. I would guess the building itself will be finished in a month or two. I am not sure when the government will get the Medical Center staffed and up and running. I will let you know as I hear more news.

If there are any members of the church who are interested in going on the mission trip to Santa Emilia, this coming Jan. 30th thru Feb. 6th, 2017, I need to know really soon. The trip is filling up fast. The cost of the trip is \$450 per person plus your airplane ticket. As I stated in church a few times I will be going with my daughter Ashley. I would love for several of you to go along with us. Right now the cost of the airplane ticket is \$750 per person. Please pray about this and see if you feel God calling you to go on an international mission trip.

Don't forget we will be having Frankie and Phyllis Vallens as our musical guests on September 24th at 6:30 p.m. We will have a light supper fellowship (Sloppy Jo's) starting at 5:30 p.m. Mary Compton will contact you if you are to bring something. I hope to see many of you here.

I hope each of you have a truly blessed week.

Your Servant in Christ,

Pastor Claude

Progress is being made on the Medical Center.

They are already working on the roof.

Soon they will have the outside work done and can start building the rooms inside.

The congregation is moving right along on their church too. This man mixes concrete for the support columns.

These support columns are on the fourth wall of the sanctuary.

The columns go up to the roof line and will help support the new wall as well as the 2x4 rafters to which tin will be added to complete the roof.

Almost Here

Saturday, September 24th, 6:30 p.m. we will be privileged to have Frankie and Phyllis Valens in our sanctuary. **The Fellowship Committee has planned a light supper (sloppy Jo's) at 5:30 before the concert.** Bring a friend and come and enjoy some good music, fellowship, and testimony. A free will offering will be taken for the Valleng's.

Doesn't matter if it is High School, College, or Professional Football, I'm glad to see it. In a couple of weeks I'll be having my 40th High School Reunion. It sure doesn't seem like it has been that long. It seems like my high school classmates look really old! I guess they are all thinking the same about me.

Good news from Santa Emilia, Nicaragua both the Medical Center and the church are coming right along. The walls on the Medical center are almost complete and they are starting on the outside roof. I would guess the building itself will be finished in a month or two. I am not sure when the government will get the Medical Center staffed and up and running. I will let you know as I hear more news.

If there are any members of the church who are interested in going on the mission trip to Santa Emilia, this coming Jan. 30th thru Feb. 6th, 2017, I need to know really soon. The trip is filling up fast. The cost of the trip is \$450 per person plus your airplane ticket. As I stated in church a few times I will be going with my daughter Ashley. I would love for several of you to go along with us. Right now the cost of the airplane ticket is \$750 per person. Please pray about this and see if you feel God calling you to go on an international mission trip.

Don't forget we will be having Frankie and Phyllis Vallens as our musical guests on September 24th at 6:30 p.m. We will have a light supper fellowship (Sloppy Jo's) starting at 5:30 p.m. Mary Compton will contact you if you are to bring something. I hope to see many of you here.

I hope each of you have a truly blessed week.

Your Servant in Christ,

Pastor Claude

Progress is being made on the Medical Center.

They are already working on the roof.

Soon they will have the outside work done and can start building the rooms inside.

The congregation is moving right along on their church too. This man mixes concrete for the support columns.

These support columns are on the fourth wall of the sanctuary.

The columns go up to the roof line and will help support the new wall as well as the 2x4 rafters to which tin will be added to complete the roof.

Almost Here

Saturday, September 24th, 6:30 p.m. we will be privileged to have Frankie and Phyllis Valens in our sanctuary. **The Fellowship Committee has planned a light supper (sloppy Jo's) at 5:30 before the concert.** Bring a friend and come and enjoy some good music, fellowship, and testimony. A free will offering will be taken for the Vallens's.

Electricity

I don't understand electricity, but I know it works. A flip of a switch brings light into a room or sends sound through a microphone.

I don't understand God's power, but I know He's the Omnipotent One. He provides power needed for every task, every situation.

When an electrical appliance fails to work, the first checkpoint is whether or not it is plugged into the power source. So it is with our lives. If things aren't working properly, we must check to be sure we are properly connected to the Eternal Source of Power and "filled" daily "with the Spirit." Ephesians 5:18. There is never a power shortage with God!

~Mildred Burger

Five year old Sara sat lovingly petting her cat at family devotions. The lesson was about taking good care of pets. The question was asked, "Do you think Jesus had pets when he was a boy and if so what kind?" The family agreed that perhaps he had a dog or cat. Sara was asked, "Do you think Jesus helped change the kitty litter?" Thoughtfully she considered the question, and then brightly said, "Nope, Jesus said, 'let there be sand!'"

Electricity

I don't understand electricity, but I know it works. A flip of a switch brings light into a room or sends sound through a microphone.

I don't understand God's power, but I know He's the Omnipotent One. He provides power needed for every task, every situation.

When an electrical appliance fails to work, the first checkpoint is whether or not it is plugged into the power source. So it is with our lives. If things aren't working properly, we must check to be sure we are properly connected to the Eternal Source of Power and "filled" daily "with the Spirit." Ephesians 5:18. There is never a power shortage with God!

~Mildred Burger

Five year old Sara sat lovingly petting her cat at family devotions. The lesson was about taking good care of pets. The question was asked, "Do you think Jesus had pets when he was a boy and if so what kind?" The family agreed that perhaps he had a dog or cat. Sara was asked, "Do you think Jesus helped change the kitty litter?" Thoughtfully she considered the question, and then brightly said, "Nope, Jesus said, 'let there be sand!'"

A Message from Pastor Shue

How about this beautiful early fall weather we had this past week end. The cool mornings and not so hot days are fine by me. This is also the start of football season as well.

Doesn't matter if it is High School, College, or Professional Football, I'm glad to see it. In a couple of weeks I'll be having my 40th High School Reunion. It sure doesn't seem like it has been that long. It seems like my high school classmates look really old! I guess they are all thinking the same about me.

Good news from Santa Emilia, Nicaragua both the Medical Center and the church are coming right along. The walls on the Medical center are almost complete and they are starting on the outside roof. I would guess the building itself will be finished in a month or two. I am not sure when the government will get the Medical Center staffed and up and running. I will let you know as I hear more news.

If there are any members of the church who are interested in going on the mission trip to Santa Emilia, this coming Jan. 30th thru Feb. 6th, 2017, I need to know really soon. The trip is filling up fast. The cost of the trip is \$450 per person plus your airplane ticket. As I stated in church a few times I will be going with my daughter Ashley. I would love for several of you to go along with us. Right now the cost of the airplane ticket is \$750 per person. Please pray about this and see if you feel God calling you to go on an international mission trip.

Don't forget we will be having Frankie and Phyllis Vallens as our musical guests on September 24th at 6:30 p.m. We will have a light supper fellowship (Sloppy Jo's) starting at 5:30 p.m. Mary Compton will contact you if you are to bring something. I hope to see many of you here.

I hope each of you have a truly blessed week.

Your Servant in Christ,

Pastor Claude

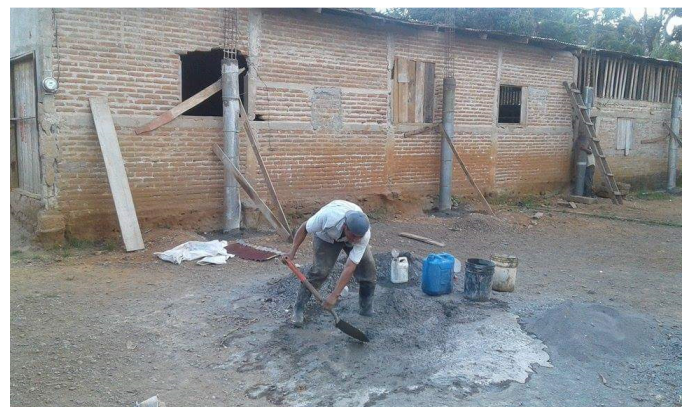

Progress is being made on the Medical Center.

They are already working on the roof.

Soon they will have the outside work done and can start building the rooms inside.

The congregation is moving right along on their church too. This man mixes concrete for the support columns.

These support columns are on the fourth wall of the sanctuary.

The columns go up to the roof line and will help support the new wall as well as the 2x4 rafters to which tin will be added to complete the roof.

Almost Here

Saturday, September 24th, 6:30 p.m. we will be privileged to have Frankie and Phyllis Valens in our sanctuary. **The Fellowship Committee has planned a light supper (sloppy Jo's) at 5:30 before the concert.** Bring a friend and come and enjoy some good music, fellowship, and testimony. A free will offering will be taken for the Vallens's.

Electricity

I don't understand electricity, but I know it works. A flip of a switch brings light into a room or sends sound through a microphone.

I don't understand God's power, but I know He's the Omnipotent One. He provides power needed for every task, every situation.

When an electrical appliance fails to work, the first checkpoint is whether or not it is plugged into the power source. So it is with our lives. If things aren't working properly, we must check to be sure we are properly connected to the Eternal Source of Power and "filled" daily "with the Spirit." Ephesians 5:18. There is never a power shortage with God!

~Mildred Burger

Five year old Sara sat lovingly petting her cat at family devotions. The lesson was about taking good care of pets. The question was asked, "Do you think Jesus had pets when he was a boy and if so what kind?" The family agreed that perhaps he had a dog or cat. Sara was asked, "Do you think Jesus helped change the kitty litter?" Thoughtfully she considered the question, and then brightly said, "Nope, Jesus said, 'let there be sand!'"

A Message from Pastor Shue

How about this beautiful early fall weather we had this past week end. The cool mornings and not so hot days are fine by me. This is also the start of football season as well.

Doesn't matter if it is High School, College, or Professional Football, I'm glad to see it. In a couple of weeks I'll be having my 40th High School Reunion. It sure doesn't seem like it has been that long. It seems like my high school classmates look really old! I guess they are all thinking the same about me.

Good news from Santa Emilia, Nicaragua both the Medical Center and the church are coming right along. The walls on the Medical center are almost complete and they are starting on the outside roof. I would guess the building itself will be finished in a month or two. I am not sure when the government will get the Medical Center staffed and up and running. I will let you know as I hear more news.

If there are any members of the church who are interested in going on the mission trip to Santa Emilia, this coming Jan. 30th thru Feb. 6th, 2017, I need to know really soon. The trip is filling up fast. The cost of the trip is \$450 per person plus your airplane ticket. As I stated in church a few times I will be going with my daughter Ashley. I would love for several of you to go along with us. Right now the cost of the airplane ticket is \$750 per person. Please pray about this and see if you feel God calling you to go on an international mission trip.

Don't forget we will be having Frankie and Phyllis Vallens as our musical guests on September 24th at 6:30 p.m. We will have a light supper fellowship (Sloppy Jo's) starting at 5:30 p.m. Mary Compton will contact you if you are to bring something. I hope to see many of you here.

I hope each of you have a truly blessed week.

Your Servant in Christ,

Pastor Claude

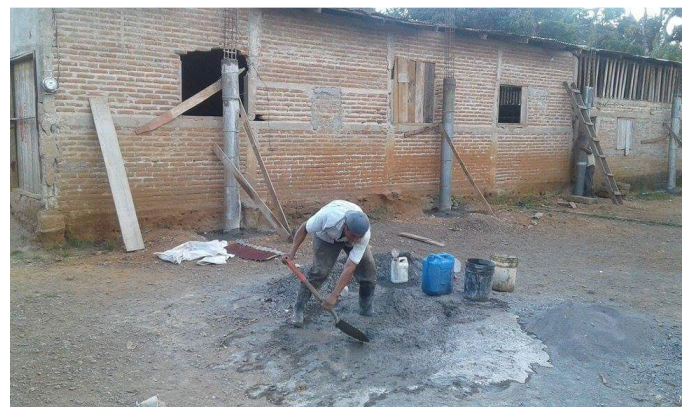

Progress is being made on the Medical Center.

They are already working on the roof.

Soon they will have the outside work done and can start building the rooms inside.

The congregation is moving right along on their church too. This man mixes concrete for the support columns.

These support columns are on the fourth wall of the sanctuary.

The columns go up to the roof line and will help support the new wall as well as the 2x4 rafters to which tin will be added to complete the roof.

Almost Here

Saturday, September 24th, 6:30 p.m. we will be privileged to have Frankie and Phyllis Valens in our sanctuary. **The Fellowship Committee has planned a light supper (sloppy Jo's) at 5:30 before the concert.** Bring a friend and come and enjoy some good music, fellowship, and testimony. A free will offering will be taken for the Valleng's.

Thank You!

Thank you to Mike and Lizz Jeffers for their donation of yarn to the Prayer Shawl Ministrey.

Mardina Gregory

Thank You!

Thank you for all the cards we received for our 50th Anniversary.

Randy & Nancy Burns

Thank You!

What a joy it was to be with you and to receive such an enthusiastic response to my "sermon in song," The Gospel According to Peter and Me! I was very touched by your graciousness in making me feel so welcome and appreciated.

Yours in Christ' Love,
Jacey Nash

Thank You!

Thank you for the beautiful prayer shawl. It is so comforting.

Electricity

I don't understand electricity, but I know it works. A flip of a switch brings light into a room or sends sound through a microphone.

I don't understand God's power, but I know He's the Omnipotent One. He provides power needed for every task, every situation.

When an electrical appliance fails to work, the first checkpoint is whether or not it is plugged into the power source. So it is with our lives. If things aren't working properly, we must check to be sure we are properly connected to the Eternal Source of Power and "filled" daily "with the Spirit." Ephesians 5:18. There is never a power shortage with God!

~Mildred Burger

Five year old Sara sat lovingly petting her cat at family devotions. The lesson was about taking good care of pets. The question was asked, "Do you think Jesus had pets when he was a boy and if so what kind?" The family agreed that perhaps he had a dog or cat. Sara was asked, "Do you think Jesus helped change the kitty litter?" Thoughtfully she considered the question, and then brightly said, "Nope, Jesus said, 'let there be sand!'"

A Message from Pastor Shue

How about this beautiful early fall weather we had this past week end. The cool mornings and not so hot days are fine by me. This is also the start of football season as well.

Doesn't matter if it is High School, College, or Professional Football, I'm glad to see it. In a couple of weeks I'll be having my 40th High School Reunion. It sure doesn't seem like it has been that long. It seems like my high school classmates look really old! I guess they are all thinking the same about me.

Good news from Santa Emilia, Nicaragua both the Medical Center and the church are coming right along. The walls on the Medical center are almost complete and they are starting on the outside roof. I would guess the building itself will be finished in a month or two. I am not sure when the government will get the Medical Center staffed and up and running. I will let you know as I hear more news.

If there are any members of the church who are interested in going on the mission trip to Santa Emilia, this coming Jan. 30th thru Feb. 6th, 2017, I need to know really soon. The trip is filling up fast. The cost of the trip is \$450 per person plus your airplane ticket. As I stated in church a few times I will be going with my daughter Ashley. I would love for several of you to go along with us. Right now the cost of the airplane ticket is \$750 per person. Please pray about this and see if you feel God calling you to go on an international mission trip.

Don't forget we will be having Frankie and Phyllis Vallens as our musical guests on September 24th at 6:30 p.m. We will have a light supper fellowship (Sloppy Jo's) starting at 5:30 p.m. Mary Compton will contact you if you are to bring something. I hope to see many of you here.

I hope each of you have a truly blessed week.

Your Servant in Christ,

Pastor Claude

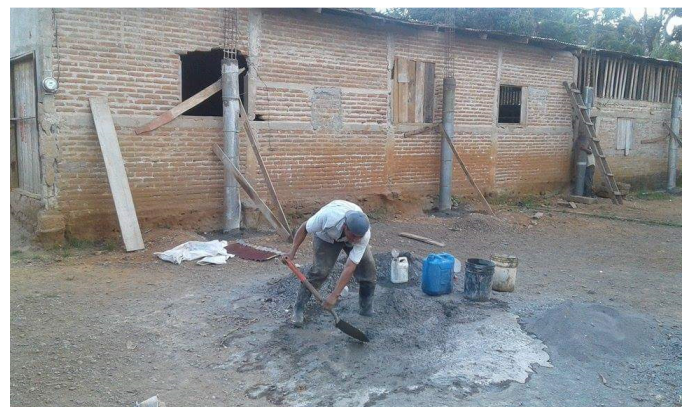

Progress is being made on the Medical Center.

They are already working on the roof.

Soon they will have the outside work done and can start building the rooms inside.

The congregation is moving right along on their church too. This man mixes concrete for the support columns.

These support columns are on the fourth wall of the sanctuary.

The columns go up to the roof line and will help support the new wall as well as the 2x4 rafters to which tin will be added to complete the roof.
