

# Start a new career with JARC.

Are you looking for work? JARC helps people get the skills they need to build a career in manufacturing.

During our FREE training program, you can earn industry credentials and have access to financial coaching, transportation assistance, and math, reading, and computer tutors. JARC also helps place you in a full-time job in manufacturing.

## CAREERS IN MANUFACTURING PROGRAMS

### CNC Machinist Fast Track (20 weeks)

*Learn the fundamentals of computerized machining, including how to program and operate a CNC machine.*

**Class Schedule** Mon-Fri; daytime & evening classes offered at both locations

### Press Brake Fast Track (10 weeks)

*Learn the fundamentals of computerized machining, including how to program and operate a Press Brake machine.*

**Class Schedule** February 2019; ask our staff about the schedule!

### Welding Fast Track (14 weeks)

*Learn the fundamentals of Gas Metal Arc Welding (GMAW or "MIG") and other processes that are used in manufacturing.*

**Class Schedule** Mon-Fri; daytime classes offered at Ravenswood location

## How to Apply

All applicants must first attend an application session.

You will fill out a written application, take a tour of our training center, and complete assessments in both math and reading. You do not need an appointment to attend, but you must be on time.

### Morning application sessions

Every Wednesday, 9:00am-1:45 pm

Main Office (2nd floor)  
4432 N. Ravenswood Ave.  
Chicago, IL 60640

### Evening application sessions

Every Wednesday, 4:00pm-8:00pm

Austin Training Center *\*located inside Austin College & Career Academy*  
231 N. Pine Ave., Door #1  
Chicago, IL 60644
