St. Luke's Safety Task Force brings you:

CPR/AED Training
March 24th
12:00 pm
Cost \$20.00 per person
 (\$35.00 if a cert. card is required)

Question: Why should I learn CPR?

Answer: Because you could help save someone's life.

Cardiac arrest is an electrical malfunction in the heart that causes an irregular heartbeat (arrhythmia) and disrupts the flow of blood to the brain, lungs and other organs. According to the American Heart Association, about 90 percent of people who suffer out-of-hospital cardiac arrests die. CPR, especially if performed immediately, can double or triple a cardiac arrest victim's chance of survival.

Pre-registration is REQUIRED
