

The New World Order

Wednesdays are our days to fast, pray and seek the Lord. Today while beginning my normal Bible meditation I began reading in Psalms 1 and the Lord spoke to me and said, "There's a new world order coming but it's not like most people think." When He said this there arose an excitement in my spirit from the Holy Spirit; it was a supernatural thing!

We see so much doom and gloom each day about the economy, continual erosion of our freedoms, heinous crimes, etc., and a countless parade of "bad" news like the Swine flu that we must be careful not to lose our focus. One of the reasons many businesses and companies fail is because they are inept at strategic business planning and, because they don't have a long-term plan with goals and objectives, they lose focus on day-to-day activities.

When we first moved to Montana 12 years ago the Lord told my wife, Evelyn, "Don't let the devil allow you to lose your focus." That's one of his main strategies you know. This strategy has stopped countless Christians from fulfilling their destiny from God because they lose their focus.

I think the recent change in the administration of the Executive Branch of our government highlights the naiveté of most Christians in our society; the world we can understand – they have no "true" wisdom nor can they ever have without the Holy Spirit, but Christians and so many Christian ministries have allowed the devil to make them lose their focus on the Great Commission by putting so much of their time and effort toward politics.

I was in Washington, D.C., on New Years Day, 2008; it was the first time I'd been there since the '80s. The Lord had given me a vision of the Supreme Court in Libby, Montana, on December 30, 2005 during the confirmation hearings of both Roberts and Alito while I was laying in the floor praying.

Because I was in the D.C. area on a ministry assignment I felt impressed to go to the Supreme Court and pray to see if the Lord would say anything about the

vision or the conversation I'd had with Him while in New York in 1982 about abortion and our government in Washington – something He told me He was going to do in the future that He's not done yet. A friend from Virginia went into the city with me and we prayed on the steps of the Supreme Court for several hours. It was a great time to go because we were the only ones there the whole time yet the Lord said nothing. But I remarked to my friend that the “city was 45% darker than when I was last here.”

Now, I'm not saying Christians should not be involved in politics; however, it's like anything else that you do – you should be led by the Spirit. My point is that, like lawyers, we have more Christian ministries with offices in Washington, D.C., than at any time in history yet the city continues to grow spiritually darker. Why is that?

Let me give you a news flash in case you've not read *Mysterious Secrets* or haven't figured it out for yourself – neither party represents God! Nor do they represent the people! I've said for many years that the only way to “fix” Washington is to abandon it – force your elected officials to work out of an office in their home state where it's not so easy to bribe them; where it's not so easy for them to be wined and dined by foreign ambassadors and lobbyists and where they're more accessible to the electorate.

But you must understand that the governments of this world are under the control of Satan – the “god of this world.” Politics is one of the ways that he controls the world. Satan controls the politics of the world through high level families and groups of people who have made contracts with him like The Illuminati; you may have a choice when you vote between two candidates but neither will represent your interests. Had Christians recognized this charade and formed a Third Party years ago things might have been different politically in the USA and other Western Governments.

And it's all about **control**. Do you think Americans, under normal circumstances, would deny the fundamental rights granted us under the Constitution? Of course not! Don't you think the devil and his people know this? So they have to use something other than the government – fear of terrorism or other things in order to justify laying down the Constitution in favor of something else where there's more control. Because the Constitution and The Bill of Rights are documents that grant citizens certain freedoms and rights – freedom of speech, religion, bearing arms, etc., these must be eliminated for the population to be completely controlled and for sovereign nations to come under the control of One World Government.

Yes, we are moving toward a One-world government but that's a good thing; not a bad thing as the Lord showed me. Because whereas the devil and his advocacy groups think they will rule and reign through this government, in reality God has a surprise for them – it will be the Lord Jesus Christ ruling from Jerusalem, Mt. Zion, as the Bible predicts. And we, the redeemed, will be ruling and reigning with Him in our new, spirit bodies that will never age or be subject to demonic attack again. Praise the Lord!

However, because the power of the devil has become stronger and because there is so much more evil prevalent in the earth today you need to strengthen yourself and your family spiritually so that you are not swept away by this flood of evil. Almost every day I receive a phone call from somebody who is being attacked in their mind by demons.

Of the servient spirits that serve Satan and all the Dark Kingdom, the *Phantom* spirits (called *iwin* in the Yoruba language of W/A) are the spirits that operate the power of Black Magic but they also pride themselves on being able to influence a person's thoughts and emotions, especially through the power of suggestion. They work with other spirits to bring a person to depression and suicide by influencing their thought life. That is why it's dangerous to dwell on all the negative things going on in the world today when what you should be doing to protect yourself is to always respond with the Word to any negative thought or word brought to you by somebody or some evil spirit.

Remember, the Word says that “the joy of the Lord” is our strength; Satan cannot operate in an atmosphere of joy so he is always seeking to bring discouragement, despair, hopelessness, etc., to the Christian to rob you of your strength and to make you more susceptible to spiritual attack by these Phantom spirits.

Recently I've been studying about the Marabouts from a secular book sent to me from a man in prison here that we've been helping. They are a tribe in W. Africa in the country of Guinea-Bissau renowned for their powers, especially of invisibility. While reading this book I thought about my friend Omoobajesu's life when he was quite young, barely a teenager, when he was seeking this power from the most famous magician in Nigeria he came to meet whose occultic name was Pambola Bola Egere. He was told to fast for six months as part of his training in making this charm for invisibility and as an apprentice to become a professor of magic he could not sleep during the day.

It's interesting – and Christians should learn from this – that in order for a person to become powerful in the Dark Kingdom they must be *disciplined* and

they must lead a disciplined life – they must demonstrate that they are *true* disciples or else they won't go very high up in the Dark Kingdom. After only 3 months Emmanuel fell asleep during the day while his master “travelled” yet even though the man was gone he knew (no doubt through his magical powers and familiar spirits) that Emmanuel had broken the discipline and slept. He confronted Omoobajesu and told him, “There is no mercy in our business; you either do it or you leave it.” As a result, Emmanuel had to begin all over again with the six month fast and the rest of it which he accomplished and was able to become invisible.

Omoobajesu has told me many times about this discipline of the Dark World and that Christians should be the same way about Christianity; it should be serious business to us – we should either “do it or leave it!”

I want to encourage you to not waste your time in these closing days of human history as so many Christians are doing playing the game, “Ain't it Awful” but to refocus your time and talents in doing something for the Kingdom of God. Be disciplined and get some people saved, healed, filled with the Spirit, feed the poor, etc. Let's spend what little time and money we have left “laying up treasures in Heaven” and doing what pleases the Lord. I know none of us is perfect but we do want the Lord to say to us, “Well done thou good and faithful servant ... enter into the joy of your Master.”
