Statement Analysis

The Investigative Statement Analysis Course was outstanding. The material and instruction were superb. I strongly recommend this class to anyone who deals with taking statements from individuals. After reviewing some old cases, I wish I had taken this years ago. I can't wait to apply this knowledge in future cases.

Leadership

I was very impressed with the instructor's knowledge related to the class. Mr. Whitehead incorporated plenty of class participation and group discussion to keep the course material from being dry. I will seek more classes that he provides.

Instructor

This course was very detailed and gave me a base of where I was at in public speaking. The instructors assisted me being an effective instructor. I learned about researching a topic, making course objectives, and the finale, presenting using power point to a class. This certification gave me the knowledge and confidence to take on other training (Alive @25) and making presentations for large groups. Thanks RW and Associates.

Steven Robles, Years of Service 14

The course was great, I learned a lot and had fun doing it. I never thought going to training could be so much fun. Thanks Rick and the crew for making training an enjoyable experience.
