Healing Our Family Legacy

The focus of this training conference, also known as Generational Healing, provides a deeper and broader understanding of the reality that both blessings and struggles appear in all families from generation to generation. The blessings are invariably life-giving to family members. The struggles so often result in family conflict and damaged relationships over a few to many generations.

Teachings include: "God's Desire to Heal Our Family Legacy", "Preparing Your Family Tree History", "Representational Confession", "Family Stories of Generational Healing", and "Generational Healing Resources for Prayer Ministry." The conference moves into its most powerful moments as participants are invited to take their Family Tree History and surrender it all to Jesus. This simple yet powerful act has been deeply healing and transformative for thousands of individuals and families.
