Healing Prayer Training Conference *"Healing Our Family Legacy"*

November 1-3, 2019

**Presenters: Elizabeth Allen, MD &
Rev. John Rice**

The focus of this training conference, also known as Generational Healing, provides a deeper and broader understanding of the reality that both blessings and struggles appear in all families from generation to generation. The blessings are invariably life-giving to family members. The struggles so often result in family conflict and damaged relationships over a few to many generations.

Teachings include: "God's Desire to Heal our Family Legacy", "Representational Confession", "A Family Story of Generational Healing", and "Preparing our Family Tree History". The conference moves to its most powerful moment, where each individual is invited to bring their Family Tree form and place it on the altar as their offering during the Generational Healing Service. This simple yet powerful act has been deeply healing and transformative for thousands of individuals and families.
