Physical Science

We are beginning our study of Newton's 3 laws of motion

English 6

We are working on indirect objects, using quotations, and writing short essays.

English 7-8

We are working on interjections, on indirect objects, and on writing for our geography research and report.

Literature 6/Spelling

We are reading stories in our textbook about relationships. This week's story is "Scout's Honor" and focuses on friendships. We continue to do endurance reading for A.R. with free-choice novels.

Literature 7-8/Spelling

We continue to analyze Character Traits, multiple plot lines, and first impressions by studying the mini-series based on Jane Austen's novel *Pride and Prejudice*. We continue to work on free choice reading for A.R.

Trinity - Rantoul 6th-8th grades

Math 7

We are studying percents.

Math 8

We are studying equations in one variable equations.

Algebra

We are studying linear equations.

World History I 5-6

We are studying the spread of people and cultures around the world.

Geography II 7-8

We are beginning our study of Eco-friendly living choices in Africa. This is a month-long project and each student has selected a different country in Africa to research. This week we are researching the eco-friendly home choices for Wisconsin and will be sketching our eco-friendly African villages.

Technology

We will begin printing out a 3D item with our 3D printer.

Physical Education/Health

We will begin cardiovascular health (walking, biking) and healthy eating. For health class, we are exploring mental health and online safety.
