

Management Team Report 2018

On behalf of the management team members, thank you for allowing us to serve you in this manner.

It has been an interesting year, but God is faithful. As we continue to try to work together to accomplish more as an association, I would like to challenge you and your place of worship to really pray for our team and our association. We truly can do more together but it takes all of us being obedient to what the Lord leads us to do. Ask God how He would have you help, be challenged to sacrifice in your giving. In the world we live in today it is more urgent than ever, in my opinion, that we have our minds and hearts made up, that we are going to support the work of the kingdom and take the Gospel into this crazy world. People are dying without Jesus, kids are growing up not knowing which restroom to use, words and deeds have been given over to darkness and I believe we are running out of time to make an impact. Even a slight increase in giving would make a huge difference.

Some things that happened this year:

- A water heater broke and flooded part of the CSBA offices. We were able to pay our deductible and insurance took care of the rest.
- Our van broke down on the way to Falls Creek and is currently in Pauls Valley at a mechanic shop. We have a couple of options on how to move forward and are in the process of making a decision.
- We were able to hire a couple to renovate the Elisha house. It has been a challenge. The man that we hired, Kurt, passed away before he could complete the job. It is very close to being done, however we have used up all the funds that have been given, so we are at a stand still there.

We are looking for some people who would be willing to serve on the "Elisha House" team. These people would oversee the house and help to write policies and such for the house. If you would be willing to serve please let Matt Spann know.

Lastly, I do want to take time to say THANK YOU so much to each person and each church that has been faithful in giving, praying and supporting our association. We really do appreciate you! We have been able to accomplish many things due to your faithfulness.
