

Hello Everyone,

I want to send you some pictures of the "HOUSE OF HOPE" project in Chimbote, Peru sponsored by Pastor Dustin Wilds and the Lake View Church of God in Cleveland, Tennessee. Pastor Dustin came to me about doing this project. He feels very strongly that God has given him a vision of a ministry in this area that will reach out to bring change to the endless cycle of poverty that is destroying the people here. His church is financing the roof that you see under construction here and when that is finished we will be placing kitchen equipment there to begin the third soup kitchen for kids in this area. But the vision here is for more than just feeding kids.... much more. As this vision unfolds I will keep you posted. To God be the Glory.
