

QPets: Total Micronutrient Support for Cats and Dogs

QPets provides quality vitamins, minerals, and amino acids in a chewable, easy-to-digest wafer specially formulated for optimal brain health and nutrition in animals. Because our pets are more than just loyal companions, QPets is the perfect way to make sure that your furry friends are receiving the essential nutrition they need to live a healthy, happy lifestyle.*

The QPets Advantage

Brain and mood health are not just a priority for people; our pets deserve to feel their best too. The QPets advantage allows your cat or dog to enjoy the same health benefits you and your family experience with EMPowerplus™ Q96. Based on the same science as Q Sciences' flagship product, QPets supports brain health while also easing aggressive or panicked behavior. Additionally, with each bottle of QPets sold, Q Sciences will donate a portion of the proceeds to Best Friends Animal Society, the largest no-kill sanctuary in the United States.*

Suggested Use: For cats and dogs: 1–2 wafers per day

For medium dogs: 2–3 wafers per day

For large dogs: 3–4 wafers a day

Because of that unadulterated joy pets bring: Q Sciences donates a portion of proceeds from the sale of each bottle of QPets to the Best Friends Animal Society.

KEY BENEFITS:

- Provides quality vitamins, minerals and amino acids specially formulated for cats and dogs*
- Chewable wafer is easy for pets to consume and digest*
- Promotes pet brain health and overall nutrition*
- Eases aggressive or panicked behavior*
