

Myriad Financial Assistance Program – Financial Criteria

Myriad offers financial assistance to patients who meet specific financial and medical criteria. Due to regulatory limitations, patients who are recipients of government-funded programs (i.e., Medicaid, Medicare, Medicare-Advantage, TriCare) are not eligible to apply. Please refer to the specific program documentation (program for Uninsured Patients or program for Underinsured Patients) for other eligibility requirements.

A separate Myriad Financial Assistance Program Application is required. The financial criteria below are for informational purposes only. This document does not need to be included with your application submission.
