

★StarLites★

A parent-child interactive 45 minute class (2 years of age)

Our 2 year old class is a great program. It is a parent involvement class that has a curriculum which is structured to work towards your child gaining his or her independence to take instruction on their own. Your child will work on developing spatial awareness and begins the ability to organize oneself and objects in space, ability to organize abstract thoughts and organize symbols, colors and shapes to prepare for school. This class will keep your child busy with fun skills every class including our bars, beams, floor, and vault with a swing or trampoline every other week. We would love to help your child get a jump start to getting ready for school!
