

STARSTRUCK Cheer is the most established and successful cheerleading program in the Central Valley. Since 2002, we've been serving our local area with the best training from our highly educated and experienced staff. Our purpose is to teach our athletes how to always be the best version of themselves, become persons of high character, and promote the value of hard work, commitment, and teamwork. These core values will be learned in an environment that is positive, fun, and supportive. Through practices, performances, and competitions, our staff at Starstruck is committed to this vision and whole heartedly cares to see all of our athletes learn and grow in the sport of cheer through success and misfortune. At Starstruck, we remember that the destination is a reward but the journey creates the memories and life lessons we take with us both now and forever.

EXPECTATIONS

Time Commitment

Practices will begin on the week of June 4th, 2018 and are incredibly important to the success of our teams. All practices are MANDATORY and most teams will practice two times per week. Practices will last from 1 ½ to 2 ½ hours in length. ALL athletes are required to attend at least 1 tumbling class per week to maintain and progress their tumbling. Starstruck reserves the right to call additional mandatory practices beyond a team's normal practice schedule as needed.

Tinys/Minis will attend 4-6 competitions and Youth/Juniors/Seniors will attend 6-8 competitions this season.

Philosophy

We want the journey for our athletes to be fun, positive, and rewarding. We strive to create an environment that our athletes can thrive in and call their "home away from home." We expect our athletes to improve their technique and progress their skills through efficient practices, but truly want them to have fun throughout the process.

Assessment Process

- Check out the skills assessment sheet on the FORMS page under the OUR GYM tab.
- Register your athlete for an assessment based on their tumbling abilities. Assessments are listed under classes and then camps/clinics (left hand side) of the screen.
- Emails will be sent (beginning in April) listing your appointment time within the block shown above.

- Athletes will be broken in to small groups of 3 with others of similar age and in the same level.
- During this appointment process the groups will check-in, stretch and warm-up and then be evaluated on a motion section, jump sequence and the standing and running tumbling skills listed on the assessment sheet.

After all assessments are complete, the staff will meet to carefully assemble the rosters for the upcoming season. Our coaching staff will work together to create teams that will have the best chance of success this season. We anticipate a variety of ages and skill levels, but we cannot determine what teams we will have and the size of these teams until assessments are complete. Every athlete who attends evaluations will make a team. Teams will not be announced until May 21, 2018. We will be hosting appointment assessments for those that cannot make the scheduled date above. Appointments will take a place May 17-19, 2018.
