Team Winning with CAO Elite

Kicking Butt and Taking Names all the Way to the Summit

“GOT BIDS?” What bids haven't we received at CAO Elite, this 2016-2017 season? Every time there is a competition, there is definitely a win, by the girls in **ORANGE** and **BLUE**! With coaches being used to think outside of the box, lots of practice, reinforcement of maxing out the score sheet and just being CAO, has equally elevated each team. Thus, making us ready for ALL

forces in the competition arena. Although, our very own Lady Royals has had a questioning season, due to roster changes and team readiness. They still came out on top with a Summit Bid at their 1st competition. One may ask- are the teams where the coaches would like them to be? No, there is always room for improvement and growth. Parents, clear your schedules for another showcase, for our BID WINNING teams. There will definitely be new routine work forthcoming, in order for us to take over U.S. Finals, The ONE, and The Summit. With rings on the line, WE WANT IT ALL!!

Exclusive 5

They are Back and Ready to Eat

In seasons prior- CAO Elite has always had a level 5 team. This team was the premier team of the gym that every little girl inspired to be on. Through injuries, lots of school events, and just being a teenager this team was dismantled for the 2016-2017. "We all needed a much needed break from all the seasons prior- and just this season in general."

But it is great news to announce that they are back in the gym, February 1 and will be competing with all CAO Elite teams at our last competition Coastal Six Flags Event April 1. When you see them in the gym- give them a hug or high five making them feel welcomed. There's truly no place like home!
