

2021 ACHIEVERS SUMMER DAY CAMP SAFETY PROCEDURES FOR COVID

Below are some of the procedures we continue to implement during our summer day camps to keep our kids and staff safe. We will modify this if we get information from the state of Texas and experts. If you have a suggestion you would like to share, please feel free to email me personally frank.kudlac@achieversgymnastics.com

“We want to do whatever we can to have a fun summer day camp experience at Achievers while keeping everyone safe.” “Last summer, at the peak of COVID, our camps were a welcome outlet for our community children” - Frank Kudlac, Achievers Gymnastics, Director of Operations

We will limit the numbers of campers and have smaller groups. If number of campers is mandated by state guidelines we will likely change as we go.

No camper or staff will be allowed in the gym if they have a fever, or any symptoms of a contagious illness. We will be checking campers & staff temperatures when they arrive and again at lunch.

Masks are now optional but strongly encouraged. This could change as the summer progresses.

All campers and staff will wash hands after every rotation or station (30 – 45 minutes).

Each staff member will have hand sanitizer and will give it to the kids several times throughout the day.

Several times throughout the day, staff will wipe down and electrostatic spray surfaces such as tables, chairs, mats, doorknobs, etc.

We will do our best to maintain social distancing.
