

Hammond Location

Congratulations to all our Spirit Xplosion Team members!!!
Everyone has made a program. If you do not see your name, contact Bill at wjyeates@spiritprofessionals.com

The teams are listed below but we wanted to give a brief explanation of how teams are formed. Many kids and parents think because they have some higher-level tumbling skills they should be on a higher-level team. Unfortunately, this can lead to unnecessary disappointment. We would just like to encourage everyone to enjoy the team, the sport, and program regardless of the level. The pie charts below give a good description of what is required as far as skills. Please also understand that All Star judges are looking for the cleanest skills possible according to each level. If you haven't mastered it, the score will reflect it. Members are placed on a particular level team based on having a vast majority of the skills **mastered** at that level, regardless of having some skills at the next highest level. For example, a strong level 1 team has a chance of winning, whereas a weak level 2 team does not. Age and division restrictions can also be factors. We consider all variables and place members based on having the best chance of having a fun and successful year!
