I am a data integration and web application software developer with an Academic background in Chinese History. I currently work in the JVM language Groovy, with forays into Java, Python, and Bashscript. I have side projects in Ruby on Rails and in Python. I am currently learning Go, ReactJS, and Docker.

### SKILLS

**Ruby:** Rails, Slim/Haml, RSpec, JSON APIs

**Javascript:** jQuery/Ajax, Node.js, Angular JS

**Python:** Django, csv and xml parsing

**HTML/CSS:** Sass/SCSS, Twitter Bootstrap, Zurb Foundation

**Java:** Groovy

PostgreSQL, Oracle, Git, Heroku, Chinese Language, History, Economics, Public Speaking

### WORK EXPERIENCE

#### **Integration Developer**

October 2015 – Present

##### **investCloud Tampa**

- **develop Extract, Transform, Load scripts to reformat data from client accounting systems into the system used by our application in Groovy JVM language**
- **troubleshoot bugs, etc in the Java application**
- **develop and maintain system for moving files from client ftp locations using cron, bash scripts, and Python scripts**
- **validate data once in the database using complex SQL queries in both Oracle and Postgres**
- **code extensive interactions with APIs, both on the client side and internally within the application, in JSON and Xml**

## **Freelance Web Developer**

May 2015 – Present

- developed a Ruby on Rails application for my Iron Yard final Project (<http://creamofthecrop.herokuapp.com>)
