76	8/30/2011	LoanDepot.com	Franklin	Williamson	Expansion	50	20,000	A direct-to-consumer mortgage lender is setting up shop in Franklin with plans to build a regional origination center that could employ up to 100 people. California-based loanDepot.com has picked up 20 loan officers and is close to finalizing formal office space for those people, who are now working out of executive suites in the area. Managing the group is Jason Reaves, who was formerly with Lending Tree and also ran his own business. Matt Murray, senior vice president of marketing at loan Depot, said that the office footprint is likely to be about 20,000 square feet. Company officials have tapped Franklin to be one of seven regional centers that will serve the entire country and plan to grow their local operations to at least 50 people.	Corporate Operations	No

79	9/6/2011	Marangoni	Madison	Davidson	Expansion	30		The North American unit of truck tread maker Marangoni is investing \$10 million to boost the capacity of its plant in Madison, where it also has its continental headquarters. Marangoni Tread North America began cranking out its products in Madison seven years ago and says it has steadily built market share. "Product demand has continued to rise at compelling rates each year," the company said in a statement. The \$10 million commitment by Italy-based Marangoni to growing in North America will boost by 30 percent the production capacity of Ringtread, a spliceless retread technology. The project also has added machinery to begin making Marangoni's procure Unitread product and added 20 people to Marangoni's local payroll. Officials said they expect to add another eight to 10 people in the next six months.	Corporate Operations / Manufacturing	Italy

85	2/15/2012	Molecular Sensing Inc.	Nashville	Davidson	Relocation			Molecular Sensing Inc., recently moved its headquarters from California, setting up shop at the Cumberland Emerging Technologies' Life Sciences Center near downtown. Molecular Sensing's technology came out of the labs of Vanderbilt chemistry professor Darryl Bornhop, and it hopes to ride a wave of interest in determining how and why a specific drug works. This comes as large pharmaceutical companies are cutting research and development jobs, perhaps opening the niche for startups with brain power. Vanderbilt initially invested in development of the technology, which the university licensed to Molecular Sensing's founders who set up shop out west. Now, the company has moved here with a small corporate presence that includes research services.	Headquarters	No
