LOCATION

Nashville

Strategically located in the heart of the Tennessee Valley, the Nashville region is where businesses thrive and the creative spirit resonates across industries and communities. The Nashville Economic Market has 10 counties and a population of more than 1.9 million, making it the largest metro area in a five-state region. Many corporate headquarter giants call Nashville home, including Nissan North America, Bridgestone Americas, Dollar General, Hospital Corporation of America and Gibson Guitar.

A national hub for the creative class, Nashville has the strongest concentration of the music industry in America. The Nashville region's educated workforce not only provides an abundant talent pool for companies, but also bolsters the region's vibrancy, artistic and musical essence, and competitive edge in technology and innovation. The Nashville region is defined by a diverse economy, low costs of living and doing business, a creative culture and a well-educated population. Cultural diversity, unique neighborhoods, a variety of industries and a thriving creative community make Middle Tennessee among the nation's best locations for relocating, expanding and startup companies.

Population growth and top employers

U.S. Population around Nashville

More than half of the nation's population resides within 650 miles of Nashville
