

98" Single-Screen Video Wall for High Impact Digital Signage

Challenge

Your messaging objectives call for large, high impact digital signage. You're considering a video wall – or you've used one in the past – but managing multiple screens can be challenging. Is there a way to more easily achieve big, bold dynamic signage?

Solution

With the introduction of ViewSonic's CDP9800 98" Ultra HD commercial display, it's now possible to achieve large, eye-catching digital messaging with a single screen. With over 8 feet of massive messaging real estate, this display lets users deploy stunning 4K content without the need to manage multiple screens. Ideal for casinos, hotels, high-end retail, transportation hubs – and any application that benefits from big, bold digital signage – the CDP9800 makes it easy to deliver a huge, seamless video wall with high-impact customized messaging. For even greater impact, four daisy-chained CDP9800 displays can support a 3840x2160 UHD signal – delivering a colossal 2x2 video wall with over 32 feet of stunning 4K content. The user-friendly interface, USB multimedia playback, and OPS slot compatibility lets you manage this breath-taking 4-screen video wall with ease – for maximum message impact with minimized management demands. With durable, commercial-grade design that includes a scratch-resistant tempered glass screen, the CDP9800 delivers reliable, high-impact messaging 24 hours a day, 7 days a week.

What you'll need for a stunning, single-screen video wall:
