SEARCHING THE PREVIOUS YEAR

How can I view students from previous years and how do I know the student's transfer portal status?

The year is a selection in the search/filter in the OTHER TRANSFERS list. Students listed in the previous year will show a status as WITHDRAWN, MATRICULATED or ACTIVE.

- The **WITHDRAWN** status is defined as the student did not transfer and remained at the current institution.
- The **MATRICULATED** status is defined as the student transferred to another NCAA member institution and is attending class full-time in the regular academic year.
- The **ACTIVE** status is defined as the student did not remain at the current institution or was not matriculated by another NCAA member institution. The student could continue to be contacted based on the active status.
