WITHDRAWN STUDENT STATUS

What happens to the student's record that was entered in the transfer portal before August 1, 2022 if the student remains at his or her current institution?

If the student enters the transfer portal before August 1, 2022 and the student remains at the current institution, the student's record should be designated as withdrawn by the current institution. The student's record will show as WITHDRAWN. If the student then asks to enter the transfer portal again (e.g., fall 2022), the student would be entered in the transfer portal and would show in the 2022-23 list with an ACTIVE record.

SEARCHING THE PREVIOUS YEAR

How can I view students from previous years and how do I know the student's transfer portal status?

The year is a selection in the search/filter in the OTHER TRANSFERS list. Students listed in the previous year will show a status as WITHDRAWN, MATRICULATED or ACTIVE.

- The WITHDRAWN status is defined as the student decided to not transfer and remain at the current institution.
- The MATRICULATED status is defined as the student transferred to another NCAA member institution and is attending class full-time in the regular academic year.
- The ACTIVE status is defined as the student did not remain at the current institution or was not matriculated by another institution. The student could continue to be contacted based on the active status.
