

Access the Previous Year's Information – Event Operators

When you log in to your account, you will still see that there are no events to report because we are now in a new year. You will have to change the Event Year and click the Refresh button to gain access to your previous year's information (pictured below).

Activity Name	Application Type	Participant Gender	Season	Start Date	Application Status	Event Review Status
	Event	Women's	F	10/04/2008	Approved	Pending
	Event	Women's	F	10/05/2008	Approved	Pending

Event Year

2008

BE AWARE! While event operators can access the previous year's applications and review forms, coaches will not be able to access their previous year's rosters to make changes. Coaches only have access to the current calendar year.

DO NOT open the BBCS in multiple Web browsers or the files will be corrupted and you will destroy historical data. Corrupted files will result in an application/review form not being processed and could result in a team's inability to participate in an NCAA-certified event
