

## **All-Star Games and Tryouts**

NCAA league certification legislation ([14.7.4.1 - Summer Basketball Leagues](#)) prohibits a league in which currently enrolled Division I student-athletes are participating from including any kind of all-star competitions in conjunction with an NCAA-certified league.

Additionally, Division I student-athletes are restricted to participating on only one team in only one league. Therefore, Division I student-athletes are prohibited from participating in any kind of organized tryout for placement in a league that involves team competition.

Postseason play-offs or tournaments are permitted, provided that the athlete competes on the same team they have played with throughout the league and that the play-off/tournament involves intraleague competition and are completed by August 31.
