

MINIMUM PRECAUTIONS:

An event operator must take reasonable precautions to prevent impermissible contact with NCAA Division I coaches during a certified event. NCAA coaches are prohibited from having contact with a prospect or the prospect's parents, family, coaches, and/or any other individual associated with the prospect as a result of his/her participation in basketball.

Minimum standards for precautionary measures to be implemented at NCAA-certified events include the following:

1. Separate areas for NCAA coaches:
 - a. check-in;
 - b. entrance (if facility permits); and
 - c. seating - REQUIRED.
2. Signage identifying all separate NCAA coaches' areas;
3. Enforcement of not allowing prospects or the prospect's parents, family, coaches, and/or any other individual associated with the prospect in designated NCAA coaches' areas.

Operators are expected to have a system in place to distinguish NCAA Division I coaches from other attendees.
