

Number from Any One College

Each team shall include on its roster no more than two players with intercollegiate basketball eligibility remaining from any two-year or four-year college (other than a Divisions II and III member institution).

As a requirement of league certification, a league operator is required to ensure that the number of athletes from any given institution is upheld in order to protect the eligibility of all student-athletes participating. If an operator will not take these precautions, this activity is not eligible for league certification. Additionally, if an operator fails to take these precautions, the league will not be eligible for certification the following year.
