Qualification Statement	Since completing my dissertation entitled The Relationship of Hope and Self-Efficacy to Health Promoting Behaviors among Student-Athletes Attending HBCUs in 2004 I have had the opportunity to shape and expand my research base. I strongly believe that understanding our student-athletes, coaches, and administrator can truly shape how our association strives ensure their success. I have served as a faculty member at now two Division II institutions at the Assistant Professor level. I currently serve on the editorial board of two refereed journals. I have published 9 articles in refereed journals, and copyrighted 3 measurements with the US Library of Congress that used widely in health promotion research. ☐

Qualification Statement	I would like to servie on the Research committee. As a tenure track facutly member and Assistant AD, I am involved in utilizing research studies on campus to better serve our student-athlete population. In addition, assessment is an indicator of the success or needed improvment of programming, of which I have a direct impact on providing. I am working with our FAR to do outside research as well, in order to better understand gender equity and its affect on our sport programs. As the compliance coordinator and in the position of gathering actual information, I feel it is also important to determine what research is necessary, as well as what may no longer be required or helpful in order to best use our insitutions. My knowledge and understanding of the necessities of necessary research makes me a solid candidate for this committee.
