

Thank you for submitting your application for the NCAA Division II Compliance Blueprint Review. The purpose of the program is to provide a Division II institution the opportunity to conduct a thorough self-study of its athletics department's compliance program. Once an institution is selected to participate, the institution will gain access to complete the online self-study. After review of the self-study, an on-campus visit by an outside vendor (paid for by the NCAA) will be conducted. Following the on-campus visit, a confidential report prepared by the vendor will be sent to the institution's chancellor/president.

The NCAA Division II Membership Committee has instituted a cancellation fee that will be imposed should your institution cancel the review. The penalty structure is as follows:

- An institution that cancels a blueprint review after 120 days after being notified it has been awarded a review will be responsible for a \$3,000 cancellation fee.
- An institution that cancels a blueprint review after 60 days of being notified it has been awarded a review will be responsible for a \$1,500 cancellation fee.

Your signature is proof of knowledge and intent to commit your institution to the requirements of the Compliance Blueprint Review if selected to participate. Your application will be considered complete once this document has been received.
