

## Celiac Disease

**Release date: September 12, 2019**

**Expiration date: September 12, 2022**

Estimated time to complete activity: Approximately 2 hours

### Overview

NursingCE provides a high-quality, effective, and comprehensive way for license practical nurses, registered nurses and nurse practitioners to earn their state-required CNE credits in a clear online format.

A course on evidence-based practice provides current content intended to help practicing nurses apply this knowledge to their practice. The course also includes questions to test competency.

**Target Audience:** Nurses, including RNs, LPNs, and APRNs, who are caring for patients with gastrointestinal disorders such as Celiac disease.

### Learning Objectives

Upon completion of this activity, participants should be able to:

1. Discuss the immune reaction that occurs in celiac disease.
2. List at least three typical and three atypical symptoms of celiac disease.
3. Discuss how inflammation is responsible for the long-term complications of celiac disease.
4. Discuss at least two complications that are a result of inadequate or unresponsive treatment of celiac disease.
5. Describe the traditional treatment for classic celiac disease.
6. List at list three adverse effects of the medication Dapsone.

### Accreditation and Designation

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the American Nurses Credentialing Center's Commission on Accreditation (ANCC) through the joint-providership of Assessment Technology Institute (ATI) (provider) and NursingCE.

ATI is accredited as a provider of continuing nursing education by the ANCC.

This activity is provided for a maximum of 2 contact hours under ANCC criteria.

### Commercial Support

None

### Faculty and Planners Disclosure Statement

All planners and faculty participating in continuing education activities provided by ATI are expected to disclose to the audience any support or relationship(s) with providers of commercial products and/or devices discussed in this activity and/or with any commercial supporters of the activity. In addition, all faculty are expected to openly disclose any off-label, experimental, or investigational use of drugs or devices discussed in their presentation. The

planners and faculty have been advised that this activity must be free from commercial bias, and based upon all the available scientifically rigorous data from research that conforms to accepted standards of experimental design, data collection, and analysis.

**The following speakers and planning committee members listed below have stated they have no financial relationship(s) with providers of commercial products and/or devices discussed in this activity and/or with any commercial supporter of this activity.**

- Cynthia Moore
- Megan Roberts, FNP
- Deborah Long, DNP
