PREFACE TO OUR SLATE OF NOMINATIONS

With this slate of candidates chosen by the Nominating Committee to work for the Federation at the State level, we feel we have brought a golden rudder to steer this ship through storm and calm alike. This slate brings together a collection of Montana women who we believe understand that there will be challenges ahead, but who can work together to strengthen and support Republican Women in Montana with all their uniqueness.

Thanks to the Nominating Committee for their input, formed as a result of years of experience working with the Federation. May these candidates, all who have accepted their nominations, bring forward the spirit of decency, honesty and integrity that has set this organization apart from others in the political sphere, and added a measure of goodness to the Republican brand. After all, we are women, and we know that what we have to offer is very, very necessary at this time when politics frequently rivals poison for the most humanly avoided substances. May we persevere and excel as the State leaders of women who want to Make America Great Again.
