**Reminder on the importance of vaccinations:**

Vaccination levels in the region remain low, and daily case rates remain high. Getting vaccinated for COVID-19 is not only about protecting yourself – it's also about protecting your family, friends, and community. Vaccination is critically important during the winter months, when indoor gatherings can lead to super-spreader events, clusters, hospitalizations, and severe illness among people who are unvaccinated.

**State Resources for Vaccine Records, Locations**

The Massachusetts Department of Public Health has free online services to find your personal vaccine records and local vaccination locations, including many pharmacies. Access your vaccine records at <https://myvaxrecords.mass.gov/>, and find local listings at <https://vaxfinder.mass.gov/>.
