**The Pele Report – July 13, 2016**

**Hello ~ Aloha ~ Namaste ~**

This is Kaypacha with the weekly Pele Report. I'm coming to you now from Corfu, Greece. It's a beautiful Island in the north of Greece. I am here at the Sound of Silence festival with some beautiful, amazing musicians, artists, and Yoga folks. It's really an amazing time period here. This is the beautiful, amazing island here, thought I would give you a shot of it. And it's a beautiful place to play!

Monday, a couple days ago, Venus went into Leo. Today, Mercury goes into Leo, the sign of fun, play, lightness of being, creative self-expression. It is time to have an expressive, joyful, beautiful experience of ourselves and each other. We've got the Moon (speaking of the other) now in the sign of Scorpio. Scorpio wants to merge, connect, and unite with the other for an intense transformation of the soul experience. Scorpio is square to Leo. It's kind of interesting that this Mercury/Venus will be squaring Black Moon Lilith on Saturday, we're going to have that square going on. I can talk a little bit about that square, from Leo to Scorpio. But she moves through Scorpio and on Friday she moves into Sagittarius. Then on Sunday, into Capricorn, until finally, it will be next Tuesday that we have the full Moon! The full Moon at Cancer/Capricorn. That Sun is going to be there at the late degrees, 27 degrees/40 minutes.

*\*Alright, let me give you a little shot of the whole coastline down there. I don't even know if you can hear me. (\*laughing) I've got the camera way the heck out there, I don't know if you heard that.\**

Full Moon, 27 degrees/40 minutes Capricorn, 27 degrees/40 minutes Cancer. And the thing about that is, we've got the Sun square Uranus on Saturday. So this full Moon is square Uranus which portends a wild, erratic, unpredictable weekend. So I'm going to go a little more into what that is about. But the beautiful thing going on during this whole time period here is a Grand Trine. Yes, this beautiful Grand Trine, the Sun is moving through the last degrees Cancer trining Mars, now direct in the late degrees of

Scorpio trining Chiron in the late degrees of Pisces – a grand water trine. Really an awesome, awesome time.

*Okay, let me figure out what it is I am trying talk about here. (\*laughing) Getting the camera right. If I come in here, I'm a silhouette and pitch black, if I come too far away you see too much of me. And the microphone is too far away, then you've got to get the light in the background. And OMG the wind and the sound and woo... life is getting complicated these days.*

First of all, a couple of announcements. I gave a talk at the Sound and Silence Festival and a number of people came up afterwards that they want to know more astrology. I have a New Paradigm Community of hundreds of people that we have a forum, we talk about astrology. I've got Dream Team Astrologers, seven more Astrologers on there. You get more videos, I give more, longer instructional, like Pele Reports videos every month. Sometimes I do questions and answers webinars. You get a chapter from my book every month. If you want to know more about this stuff which you are your own best astrologer. The more of this that you know, the more you look at your own chart and the more you understand, the more it brings up beautiful, empowering insights into why you are here and who you are and what comes next. (\*laughing) Astrology is awesome! So hook up with that community, it's cheap, it's 15 bucks a month. And you get all this kind of stuff and meet all these kinds of people. You get discounts on readings and all kinds of stuff. For the Astrology Rising Convention next summer, next May in Costa Rica, hundreds of people coming together to do astrology on Flamingo Beach. Check that all out on my website sometime if you haven't been there. And I've got Kundalini Yoga videos you can download. I've got Kriyas, instructional chapters of books. I've got all kinds of stuff on my website. So if you haven't seen it, check it out. [www.newparadigmastrology.com](http://www.newparadigmastrology.com)

Because these are really interesting times, Uranus is extreme. This full Moon coming along, Cancer/Capricorn squaring that Uranus in Aries. This is going to be an intense weekend, and by intense... Pluto is intense, Uranus is more shock, awe, surprise. Intensity requires the volcano, or the blacksmith's hammer. Uranus can be like, bam! Like these women are executed over there in the Middle East. Somebody blows up something, or your partner blows your mind or shocks you. These shocks, we're in these times of shocks.

We've got Neptune conjunct the South Node of the Moon in the sign of Pisces - the collective unconscious. If we look at Neptune and we look at Pisces, it looks beautiful out here, you know what? Neptune could be a ferocious God of the water that would just sink ships and torment Odysseus. There is a dark side to this collective unconscious. It's not all woo woo, spiritual light, Yogi Seekers. There's also, everything that has been suppressed, stuffed under. We have for the next number of years this Neptune in Pisces is bringing up all this patriarchal, dark masculine, ferocious, crazy, insane energy, madness and illusions that can lead to neurotic and psychotic forms of behavior. And Uranus is like, boom, boom! This is a time people can go nuts. People are going nuts, what am I talking about? (\*laughing)

At the same time, we've got Sun in Cancer, this beautiful, vulnerable, sensitive, emotional, intuitive, opening and moving into Leo. Mercury and Venus into Leo wants to play and have fun and recreation, dance and sing and have joy and lightness of being. It's like this whoa. You can get super high and super low. We've still got the T-Square going on with Jupiter opposite Neptune squaring Saturn. This is like bi-polar, where I've got this super-hot vision of understanding how everything fits together. And then the next day I can't talk or I don't want to see anybody, I am just really in fear or unstable.

This is the time and what I want to say is, we're on the cusp of the Age of Aquarius. If you're listening to this Pele Report and you're into astrology and you're into the spiritual path of awakening and enlightening and opening the third eye and the crown chakra and really bringing in a new paradigm, then you've incarnated to be a healer, a teacher, a model, an example, a leader for this new paradigm to come about. And this is a testing time, this is a test, this is only a test of the emergency broadcast system.

This is a time where we are being challenged, and we are being tested. Just who are you? Who am I? What am I made of? What am I afraid of? How stable am I? How fearless or fearful am I? Am I going to face the zillionaire banker? Am I going to face the establishment that I want to bring in a new paradigm? Or am I going to dance like a gypsy around the fire and hide out and runaway and try to pretend or ignore what's going on?

If we're going to create this Age of Aquarius, it involves Virgo, Jupiter/North Node. It involves attention to detail, it involves effort, it involves work, and it involves facing and confronting the shadow, the dark, and the evil, the whatever. And not burying our heads in the sand of illusion, thinking that, 'Oh if we just love, it's all going to be alright.' (\*laughing)

There's tough love and there's strong love. Love creates boundaries, healthy boundaries so that those children can grow, or the plants can grow, or the environment can be saved for the animals. We are here as elders to bring in natural law and human laws, boundaries, rules. And maybe get rid of old patriarchal establishment and institutions. But we're not returning to anarchy. We're not devolving into barbaric forms of behavior. We need to create new establishments... we need to establish new communities. We've got to get real - Virgo is an earth sign. This is like a super awesome time. And I think it's testing us to see the fabric that we are made of. And if we're just sailing flags, we are the new boat! (\*laughing)

We've got Mars in Scorpio still going on, we've got Black Moon Lilith there until February. And Scorpio is about confrontation, yeah. And relationship that is about power. And it's hopefully the merging of power. But sometimes it's also... the more clear we are, the more we can merge without the fear of losing, or needing to struggle, or needing to win. But we can merge with less effort if we are in our Leo, in our truth, in our authentic natural expression of our unique, original solar self - Apollo, boom! I was on Delos last week, birthplace of Apollo, the Sun, we're each a ray of sunlight. So this Mercury/Venus moving into Leo wants to just radiate our solar-self. And when we do that, we're going to get feedback. We might get flat, we might be confronted, and we might be challenged. So then, what do we do? Cower, run, hide?

Hegel (German philosopher, Georg Wilhelm Friedrich Hegel) talked about the thesis, the **thesis** is what we put out. The **antithesis** is what comes back to us, and the **synthesis** is what we make out of. So we're always exhaling, and then we get the feedback from our spouse, partner, society, family, whatever, the antithesis. Then we need to reorganize, recreate, evolve and mature... and then express the thesis of who we are again – that's what Leo is all about!

The Mantra for this week:

***As no one can tell me who I am,  
And there's really no failing in the end,  
I'm free to create myself again and again and again.***

It's trial and error. It's fake it til you make it. It's not holding back out of fear of rejection or judgment, or whatever. It's radiating, radiating... the Sun shines down on everyone! (\*laughing) Yeah, ya know!

And so you might get Scorpio feedback. You may get negative this, or challenge that, or power struggle, or ego. And take it in and don't be overpowered, overwhelmed, threatened. But listen... and then, recreate... Bam... and put it out again! You know what I'm sayin'? It's that fun, it's the dance, it's the dance, and we're dancing with life. Breathing in and out. We put ourselves out, we take each other in. Then we modify and change, it's all about evolution, yeah.

So have fun with it and play with it. And even though there's disaster, madness and craziness out there, don't run and hide. But no, boom... go into it! Be a change maker, yeah baby! (\*laughing)

Alright, one more time now:

***As no one can tell me who I am,  
And there's really no failing in the end,  
I'm free to create myself again and again and again.***

There's no failing, because think of it, when you die, you were who you were - you were who you were! Tomorrow you will be who you are. How can you fail at being who you are? You just are! (\*laughing) I love it, man!

*Alright, so, again and again and again....*

***Namaste, Aloha, So Much Love!***

***Kaypacha***
