## **Past:**

1. Pluto in House, Sign, & Aspects – shows the soul's desires in previous lives and thus its deepest issues of security.
2. Moon's South Node in House, Sign, & Aspect – shows the egos that the soul created in previous lives to experience its soul-desires.
3. Moon in House, Sign, & Aspects – shows what the soul has learned, knows, and is bringing forward into this life as self image and identity.
4. Chiron in House, Sign, & Aspect – shows where the native is challenged to move beyond ego needs. This is the fuel driving the search for truth.
5. Ruler of the South Node in House, Sign, & Aspects – shows how these egos lived in previous lives, what and how they operated and what they experienced relative to the soul's desires.

## **Future:**

6. PPP – Pluto-Polarity-Point – opposite House and Sign of the natal Pluto – the intention of the Soul in this life to evolve beyond the old patterns of attachments and old security-patterns.
7. Moon's North Node in House, Sign, & Aspects – the focus for the soul intention to be fulfilled. House = activities that lead to that fulfillment.
8. Ascendant Sign and Aspects – The school that the soul is in this life. What needs to be learned and applied for the accomplishment of the soul's intention (PPP & NN).
9. Ruler of North Node in House, Sign, & Aspects – how and where the native can apply the energy of the NN; how and what to do for the NN and thus the soul's intention to be fulfilled.
10. Descendant – The soul's Relationship Intention
11. Midheaven – The soul's "Right Livelihood"
12. Nadir – The soul's Home and Roots

## **Present:**

13. Sun by Sign, House, & Aspect is the energy source driving the entire chart. It is the connection point to Source that needs to flow unblocked.
14. Venus by Sign, House, & Aspect represents the native's relationship to themselves (what they value, love, and admire) which is reflected in the types of relationships they attract. In a man's chart it is the inner feminine.
15. Mars by Sign, House, & Aspect represents the native's masculine, expressed energy in terms of desires and wants. In a woman's chart it is the inner masculine.
16. Mercury by Sign, House, & Aspect represents how the native thinks, communicates and analyzes.
