

Assessment Competency Correlation Worksheet

Description:

This tool asks you to analyze how your learning projects incorporate the five strategies of next gen assessment: Formative Assessment, Performance Assessment, Multiple Measures, Badges & Micro-credentials, and Quality Reviews of Learning Experiences and the MyWays competencies.

Purpose:

It's important to connect back to your definition of student success, and the competencies that help you get there. By working through this tool you will be able to see how your multiple assessment measures are connected to (and actively support) the competencies that you value. Ultimately, using this tool will help you answer the big questions: How does your school's assessment design gauge and advance these richer, deeper competencies? Where are you already succeeding, and in which areas can you refocus efforts?

Instructions for Use:

1. For this tool, we recommend having the exercise overview to review descriptions of the five strategies handy. (To go deeper, and for context and research behind the five strategies, also refer to Report 12: [Assessment Design for Broader, Deeper Competencies](#).)
2. Choose one learning project to evaluate as a group.
3. Work through the tool and list out the various assessment methods you're using in each competency arena. (Work on hard copy, or load the template into a Google doc for collaborative editing.)
4. Come back together, and use these questions as anchors for a conversation:
 - What are some areas of strength in the ways in which you assess your students and it connects to the competencies?
 - What assessment strategies do you feel should be strengthened or added?
5. Based on that analysis, create an action plan.

Assessment Competency Correlation Tool PROJECT:

MyWays Competencies	Formative Assessments	Performance Assessments	Multiple Measures	Badges & Micro-credentials	Quality Reviews of Learning Experiences
Content Knowledge <ul style="list-style-type: none"> • English Core • Math Core • Science, Social Studies, Arts, & Language • Interdisciplinary & Global Knowledge • Career-Related Technical Skills 					
Creative Know How <ul style="list-style-type: none"> • Critical Thinking & Problem Solving • Creativity & Entrepreneurship • Communication & Collaboration • Information, Media, & Technology Skills • Practical Life Skills 					
Habits of Success <ul style="list-style-type: none"> • Academic Behaviors • Self-Direction & Perseverance • Positive Mindsets • Learning Strategies • Social Skills & Responsibilities 					
Wayfinding Abilities <ul style="list-style-type: none"> • Survey the Learning, Work, & Life Landscape • Identify Opportunities & Set Goals • Design & Iterate Prototype Experiences • Find Needed Help & Resources • Navigate Each Stage of the Journey 					

Assessment-Competency Correlation Tool/Supplemental PROJECT:

	Formative Assessments	Performance Assessments	Multiple Measures	Badges & Micro-credentials	Quality Reviews of Learning Experiences
Content Knowledge
