## **OVERVIEW**

### **Purpose:**

The purpose of this report is to support the integrity and transparency in Government Contracting Practices through annual reporting activities. It enhances the transparency of Government Contracting Practices while presenting meaningful and useful information in a timely fashion.

### **Introduction:**

The organization of this report is based on the Government of Nunavut (GN) Contract Procedures and information available from Nunavut Housing Corporation databases. The report provides statistical information and contract details about Nunavut Housing Corporation Contracts and Operating and Maintenance Expenditures for the fiscal year 2009/10.

### **Report Overview:**

The report focuses on the distribution of contracts awarded to companies in accordance with their NNI registration identification (NNI status). The registration IDs are noted below.

GN: Government of Nunavut registered Business  
NTI/INUIT: Inuit owned business registered with NTI  
Local: Locally registered company with the Municipality that the work is being performed.  
Other: Not GN nor NTI Registered, therefore cannot be considered "Local" also.

In the supporting data sheets, a company that is both GN and NTI (GN/NTI) registered is classified in the summary information under NTI; and a company with the triple registration GN, NTI and Local (GN/NTI/Local) is classified under NTI as are companies with dual NTI and local registration. Companies without GN, NTI or Local registration are grouped under Other.

The Contract data is organized into Section A and Section B.

**Section A** deals with Construction related expenditures (Public Housing; Staff Housing, Furniture, vehicles, etc) and provides for the reporting of Inuit Labour contents achieved on constructed projects. With view to the GN's Contract Procedures Manual the data in Section A constitute a *Large Contracts Report* -as it includes Goods Contract with a value of \$5,000.00 and greater, and all other Contract Types with a value of \$25,000.00 and greater.

**Section B** is devoted to the Operating and Maintenance expenditures; and comprises of both *Small Contracts and Large Contracts*. *Small Contracts* are for Goods Contract under \$5,000.00 and all other Contract Types under \$25,000.00. *Large Contracts* are as defined in Section A.

## TERMS

*Goods:* In this report, “Goods” means contracts for the purchased goods that are primarily entered into by Nunavut Housing Corporation using a purchase order.

*Invitational Tender:* are those tenders for which tender documents are sent only to contractors or suppliers specifically selected to submit tenders.

*Public Tender:* are those tenders which are publicly advertised.

*Sole Source:* is best defined by setting out the criteria. The Government of Nunavut contract regulations, under the Financial Administration Act, allow solo sourcing of contracts where a contract authority believes, on reasonable grounds, that one of the following is applicable.

- a) the goods, services or construction are urgently required and delay would be injurious to the public interest; or
- b) only one party is available and capable of performing the contract; or
- c) the contract is an architectural or engineering contract that will not exceed \$25,000; or
- d) or any other type of contract that will not exceed \$1,000 in value.

*Request for Proposal (RFP):* has been defined as follows, “when the government knows what end result should be, but not necessarily how best to achieve it; therefore the government seeks proposals on methods, ability, and price. Government can thereby negotiate the best method to achieve the best value”.

*Tender:* may be obtained by public advertisement or private invitation. It should be noted that, generally, the value and type of contract will determine the type of tendering to be used.
