OVERVIEW

Purpose:

The purpose of this report is to support the integrity and transparency in Government Contracting Practices through annual reporting activities. It enhances the transparency of Government Contracting Practices while presenting meaningful and useful information in a timely fashion.

Introduction:

The organization of this report is based on the Government of Nunavut (GN) Contract Procedures and information available from Nunavut Housing Corporation databases. The report provides statistical information and contract details about Nunavut Housing Corporation Contracts and Operating and Maintenance Expenditures for the fiscal year 2011/12.

Report Overview:

The report focuses on the distribution of contracts awarded to companies in accordance with their NNI registration identification (NNI status). The registration IDs are noted below.

GN/NNI: listed on the Government of Nunavut Business Registry
NTI/INUIT: listed on the NTI Inuit Firms Registry
Other: Not registered as an Inuit or a Nunavut firm

In the supporting data sheets, a company that is both GN and NTI (GN/NTI) registered is classified in the summary information under NTI; and a company with the triple registration GN, NTI and Local (GN/NTI/Local) is classified under NTI as are companies with dual NTI and local registration. Companies without GN or NTI registration are grouped under Other.

The Contract data is organized into Section A and Section B.

Section A deals with Construction related expenditures (Public Housing; Staff Housing, furniture, vehicles, etc) and provides for the reporting of Inuit Labor content achieved on constructed projects. With a view to the GN's Contract Procedures Manual the data in Section A constitutes a *Large Contracts Report* -as it includes Goods & Services Contracts with a value of \$5,000.00 or greater, and all other Contract Types with a value of \$25,000.00 or greater.

Section B is devoted to the Operating and Maintenance expenditures; and comprises both *Small Contracts and Large Contracts*. *Small Contracts* are for Goods & Services Contracts under \$5,000.00 and all other Contract Types under \$25,000.00.

TERMS

Goods: In this report, “Goods” means contracts for the purchased goods that are primarily entered into by Nunavut Housing Corporation using a purchase order.

Invitational Tender (IT): are those tenders for which tender documents are sent only to contractors or suppliers specifically selected to submit tenders.

Public Tender (PT): are those tenders which are publicly advertised.

Sole Source (SS): is best defined by setting out the criteria. The Government of Nunavut contract regulations, under the Financial Administration Act, allow solo sourcing of contracts where a contract authority believes, on reasonable grounds, that one of the following is applicable.

- a) the goods, services or construction are urgently required and delay would be injurious to the public interest; or
- b) only one party is available and capable of performing the contract; or
- c) the contract is an architectural or engineering contract that will not exceed \$25,000; or
- d) or any other type of contract that will not exceed \$1,000 in value.

Request for Proposal (RFP): has been defined as follows, “when the government knows what the end result should be, but not necessarily how best to achieve it; the government seeks proposals on methods, ability, and price. Government can thereby negotiate the best method to achieve the best value”.

Invitational Request for Proposal (IRFP): An Invitational Request for Proposal (IRFP) are those requests which are sent to contractors or suppliers selected to submit proposals.

Negotiated Contract (NEG): A negotiated contract is a contract that is awarded to a specific firm without following a competitive tender or proposal process and without meeting the requirements permitting a contract authority to sole source. This type of activity is referred to as “Cabinet Prerogative” and is permitted by section 5 of the Government of Nunavut Contracting Regulations.

Request for Quotation (RFQ): An RFQ is typically issued by procurement when the good or service is well defined and readily available.

Standing Offer Agreement (SOA): SOA’s are not contracts. They are pricing agreements with suppliers or contractors covering anticipated requirements over a defined period of time. They may be used in the contracting for frequently required low value goods or services.
