OVERVIEW

Purpose:

The purpose of this report is to support the integrity and transparency in Government Contracting Practices through annual reporting activities. It enhances the transparency of Government Contracting Practices while presenting meaningful and useful information in a timely fashion.

Introduction:

The organization of this report is based on the Government of Nunavut (GN) Contract Procedures and information available from Nunavut Housing Corporation databases. The report provides statistical information and contract details about Nunavut Housing Corporation Contracts and Operating and Maintenance Expenditures for the fiscal year 2014/15.

Report Overview:

The report focuses on the distribution of contracts awarded to companies in accordance with their NNI registration identification (NNI status). The registration IDs are noted below.

| | |
|------------|---|
| NTI/INUIT: | Inuit owned business registered with NTI |
| NNI: | Government of Nunavut registered business |
| Local: | Locally registered company with the Municipality in which the work is being performed (must also be NTI and/or NNI registered to qualify as local). |
| Other: | None of the above. |

In the supporting data sheets, a company that is both NTI and NNI (NTI/NNI) registered is classified in the summary information under NTI; and a company with the triple registration NTI, NNI and Local (NTI/NNI/Local) is classified under NTI as are companies with dual NTI and local registration. Companies without NTI or NNI are grouped under Other.

The Contract data is organized into Section A and Section B.

Section A deals with Major Construction with a view to the GN's Contract Procedures Manual the data in Section A includes Contract Types with a value of \$25,000.00 and greater.

Section B is devoted to the Operating and Maintenance expenditures and includes Goods, Services, Maintenance, Leases and all other Contract Types over \$5,000.00.

CONTRACTING REPORT 2014-15

CONTRACTING REPORT 2014-15

Leases

Refers to both public and staff housing units that were newly acquired or required contract renewals.

In 2014/15, new leases were primarily procured through PRFP. Where possible, NHC opted to renew the majority of leases under the same vendors, as the units were already occupied by NHC public housing or staff housing tenants, and failing to renew the leases would cause significant disruption to operations.

In 2013/14 NHC renewed \$8.5 million in leases that were originally procured through sole source. In 2014/15, NHC renewed only \$4.3 million sole source leases. This decrease is a result of greater efforts being made to use alternative procurement methods such as PRFP.

All new and all renewed leases are for a duration of one to five years.

| CONTRACT TYPE | AMOUNT | PERCENTAGE |
|-----------------------------|--------------------|-------------------|
| Public Tender | 0 | 0% |

SOLE SOURCE COMPARISON

Sole Source:

Sole Source contracting practices are monitored closely. NHC believes it is able to get the best value for money through competitive bidding processes; however, there are limited situations where the contracting regulations permit awarding contracts without competition. Listed below are the acceptable conditions for awarding contracts without competition:

1. The goods, services or construction are urgently required and delay would be injurious to the public interest
2. Only one party is available and capable of performing the contract
3. The contract is an architectural or engineering contract that will not exceed \$25,000 in value or is any other type of contract that will not exceed \$5,000 in value.

2013-14 & 2014-15 Comparison

Other Operating Expenses (Goods): Decrease is due increased efforts by management to use transparent procurement methods that allow for fair vendor selection.

Consulting Services: Decrease is due increased efforts by management to use transparent procurement methods that allow for fair vendor selection.

Maintenance: Decrease is due increased efforts by management to use transparent procurement methods that allow for fair vendor selection.

TERMS

Goods: In this report, “Goods” means contracts for the purchased goods that are primarily entered into by Nunavut Housing Corporation using a purchase order.

Invitational Tender: are those tenders for which tender documents are sent only to contractors or suppliers specifically selected to submit tenders.

Public Tender: are those tenders which are publicly advertised.

Sole Source: is best defined by setting out the criteria. The Government of Nunavut contract regulations, under the Financial Administration Act, allow sole sourcing of contracts where a contract authority believes, on reasonable grounds, that one of the following is applicable:

- a) The goods, services, or construction are urgently required and delay would be injurious to the public interest; or
- b) Only one party is available and capable of performing the contract; or
- c) The contract is an architectural or engineering contract that will not exceed \$25,000; or
- d) Or any other type of contract that will not exceed \$5,000 in value.

Request for Proposal (RFP): has been defined as follows, “when the government knows what the end result should be, but not necessarily how best to achieve it; therefore the government seeks proposals on methods, ability, and price. Government can thereby negotiate the best method to achieve the best value”.

Tender: may be obtained by public advertisement or private invitation. It should be noted that, generally, the value and type of contract will determine the type of tendering to be used.
