## OVERVIEW

### Purpose

The purpose of this report is to support the integrity and transparency in Government Contracting Practices through annual reporting activities. It enhances the transparency of Government Contracting Practices while presenting meaningful and useful information in a timely manner.

### Introduction

The organization of this report is based on the Government of Nunavut's (GN) Contracting Procedures and information available from Nunavut Housing Corporation's databases. The report provides statistical information and contract details about the Nunavut Housing Corporation's contracts and operating and maintenance expenditures for the fiscal year 2015 - 2016.

### Report Overview

The report focuses on the distribution of contracts awarded to companies in accordance with their NNI registration identification (NNI status). The registration IDs are noted below.

<b>NTI / INUIT:</b>	Inuit owned business registered with NTI
<b>NNI:</b>	Government of Nunavut registered business
<b>Local:</b>	Locally registered company with the Municipality in which the work is being performed (must also be NTI and/or NNI registered to qualify as local).
<b>Other:</b>	None of the above.

In the supporting data sheets, a company that is both NTI and NNI (NTI/NNI) registered is classified in the summary information under NTI; and a company with the triple registration NTI, NNI and Local (NTI/NNI/Local) is classified under NTI as are companies with dual NTI and local registration. Companies without NTI or NNI are grouped under 'other'.

The detailed contract information is organized into **Section A** and **Section B**.

Section A deals with 'Major Construction'. As per the Government of Nunavut's Contracting Procedures Manual, the data in Section A includes contracts with a value of \$25,000 or greater.

Section B is devoted to the operating and maintenance expenditures and includes Goods, Services, Maintenance, Leases and all other contracts over \$5,000.

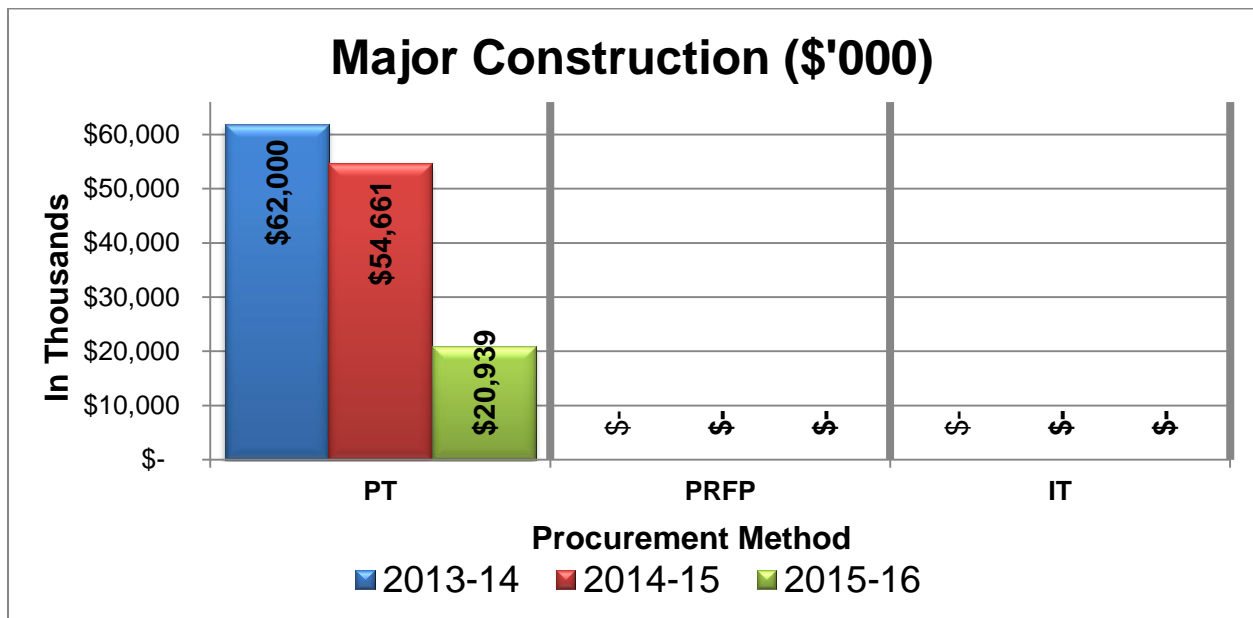

**SUMMARY OF SECTION A—MAJOR CONSTRUCTION CONTRACTS**

This section contains all major construction contracts of \$25,000 or higher that were awarded during the fiscal year 2015 -2016.

The information was recorded at the time the contract was awarded. The award value does not reflect the amount actually paid out. If information is required on the current status of the contract, that can be provided upon request. While the NHC strives for transparency, it is to be noted that proprietary information may not be released for contractual and legal reasons.

<sup>1</sup> These projects (\$6,239,120) were included in the 2014-2015 Contracting and Procurement Report in error as the contract was awarded on April 20, 2015. Prior year comparatives have been adjusted.

## CONTRACTING REPORT: 2015 - 2016

### Leases

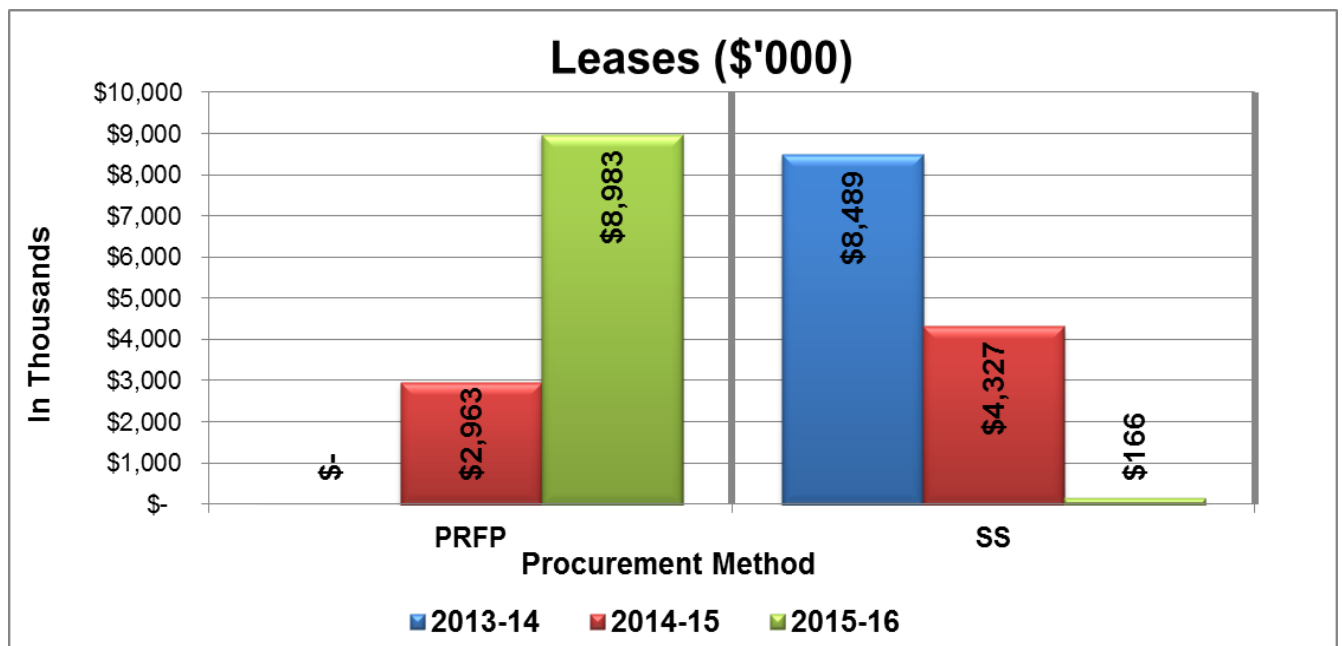

This section provides information on new public and staff housing leases entered into or renewed during the fiscal year 2015-2016.

In 2015-2016, new leases were primarily procured through Public Request for Proposals (PRFP). Where possible, NHC opted to renew the majority of leases under the same vendors, as the units were already occupied by NHC public housing or staff housing tenants, and failing to renew the leases would cause significant disruption to operations.

Leases acquired through sole source procurements are in respect of units acquired on behalf of departments of the Government of Nunavut under a Memorandum of Understanding (MOUs). All new and all renewed leases are for durations of between one and five years.

CONTRACT TYPE	AMOUNT	PERCENTAGE
Public Request for Proposal	\$8,983,428	98%

## Sole Source Comparison

Sole Source contracting practices are monitored closely. NHC believes it is able to get the best value for money through competitive bidding processes. However, there are limited instances where the GN's contracting procedures permit awarding contracts without competition. Listed below are the acceptable conditions for awarding contracts without competition:

1. The goods, services or construction are urgently required and delay would be injurious to the public interest
2. Only one party is available and capable of performing the contract
3. The contract is an architectural or engineering contract that will not exceed \$25,000 in value or is any other type of contract that will not exceed \$5,000 in value.

### 2014-15 & 2015-16 Comparison

**Goods:** Management continues to identify procurements that could be procured through a competitive process. Most of the sole source purchases were in advertising, office and computer supplies and insurance for the Commissioner's residence.

**Leases:** There has been considerable reduction in sole sources due to the issuance of a public request for proposal during 2015-16. Also, the NHC exercised renewal options for leases that had been initially procured through public tenders.

**Services:** The decrease is due the issuance of Standing Offer Public Requests for Proposal in 2015-16. Legal, policy and financial services which had been procured through sole source now have Standing Offer Agreements in place.

**Maintenance:** 80% (\$795,000) of sole source procurements in this category are for long standing staff housing management services contract in Rankin Inlet. Management will be looking at issuing a public request for proposal/tender for these services.

### Terms

**Goods:** In this report, “Goods” means contracts for the purchased goods that are primarily entered into by Nunavut Housing Corporation using a purchase order.

**Invitational Tender:** are those tenders for which tender documents are sent only to contractors or suppliers specifically selected to submit tenders.

**Public Tender:** are those tenders which are publicly advertised.

**Sole Source:** is best defined by setting out the criteria. The Government of Nunavut contract regulations, under the Financial Administration Act, allow sole sourcing of contracts where a contract authority believes, on reasonable grounds, that one of the following is applicable:

- a) The goods, services, or construction are urgently required and delay would be injurious to the public interest; or
- b) Only one party is available and capable of performing the contract; or
- c) The contract is an architectural or engineering contract that will not exceed \$25,000; or
- d) Or any other type of contract that will not exceed \$5,000 in value.

**Request for Proposal (RFP):** has been defined as follows, “when the government knows what the end result should be, but not necessarily how best to achieve it; therefore the government seeks proposals on methods, ability, and price. Government can thereby negotiate the best method to achieve the best value”.

**Tender:** A tender may be obtained by public advertisement or private invitation. It should be noted that, generally, the value and type of contract will determine the type of tendering to be used.
